

## **301 KAR 2:132**

### **Elk quota hunts, elk depredation permits, landowner cooperator permits, and voucher cooperator permits**

This administrative regulation establishes the requirements for the elk permit drawing and quota hunts, the conditions under which special commission permits, landowner cooperator permits, and cooperator voucher permits can be used, procedures for elk damage abatement, and requirements for any postseason hunt held after quota hunts are completed.

#### **Significant Changes**

The amendment modifies the ineligibility period for drawn elk hunters. Previously, only those hunters drawn for an antlered elk tag were required to sit out 3 years before applying for the quota hunt. This amendment will require a hunter who was drawn for any elk quota hunt to be ineligible for 3 years before applying for another elk quota hunt.
