

**Appendix 4.29 Percent of Kentucky's Comprehensive Wildlife Conservation Strategy (CWCS) species by taxonomic class in each Tier I Conservation Area.**

MOVP = Mississippi - Ohio Valley Plains Conservation Area

SWAP = Southwestern Appalachian Plateau Conservation Area

ILPK = Interior Low Plateau Karst Conservation Area

Class	MOVP		SWAP		ILPK		All 3 areas	
	Species	% *	Species	% *	Species	% *	Species	%
Fishes and Lampreys	29	49%	15	25%	20	34%	54	92%
Mussels	18	40%	21	47%	30	67%	43	96%
Amphibians	10	45%	10	45%	10	45%	19	86%
Birds	64	82%	45	58%	53	68%	72	92%
Mammals	7	44%	9	56%	8	50%	13	81%
Reptiles	21	81%	4	15%	12	46%	24	92%
Total all classes	149	61%	104	42%	133	54%	225	91%
New species by adding this conservation area	149	61%	49	20%	27	11%		
Total species by adding this conservation area	149	61%	198	80%	225	91%		

\* = Percent of Kentucky CWCS species in the taxonomic class that have been observed in the conservation area. Calculations were based on species with occurrence records 1984 or later (246 species) excluding Red-cockaded Woodpecker
