

KY NASP® COACH'S TOURNAMENT GUIDE 2022

Arriving at the Tournament

Kentucky NASP® wants all of the coaches, archers, parents, and workers to have the most positive experience possible at all tournaments. Following are a few tips to help achieve that goal. Upon arriving, coaches will need to pick up their team packets, and sign stating they have collected the student waivers for their files. The packets will contain a copy of the current roster, a form for changes, scorecards, and labels for the scorecards. If changes are to be made to the roster, please fill out the change

form immediately and take it to the scoring room. All changes must be made before any team members begin shooting. Payment for registration must be made at this time as well. Teams are responsible for all archers registered at the close of registration plus any spots added above that number. Substitutions do not increase your amount due. Once all changes have been made, labels found in your packet need to be adhered to the scorecards in the rectangle indicated. It would be a good idea to review the labels and make sure they are correct. Shooter numbers, found on the copy of the roster, should be bubbled in with a pencil. Coaches or archers may bubble in the shooter numbers. Archer's bows should be hung on the racks for inspection at least 15 minutes before flight time. If the tournament is running behind, remain off of the range until called for by the announcer. All coaches and archers should be well versed in the rules. Please note that the Kentucky NASP® rules have a few small differences from the national rules. These additions are indicated on the document with blue highlighting. The Kentucky NASP® rules document may be found online at www.fw.ky.gov/Education/Documents/2022KYNASPBullseyeTournamentRules.pdf. Please remember at all times that everyone involved in the tournament has the same goal - the archers!

Tournament Documentation

Kentucky NASP® requires all NASP® coaches to collect a signed **student waiver** from each archer. Coaches will sign a statement upon arrival stating that the forms have been obtained. The form may be found online at www.fw.ky.gov/Education/Pages/NASP.aspx or on the link to the right.

Prepare Your Archers

Scoring Protocol - To keep the flight running smoothly for your archers and the other archers in the tournament, please make sure they are efficient in the scoring process. Most delays happen during the scoring process and for some archers, it becomes a source of frustration. NASP® developed a new scoring protocol a few years ago as well as a video for demonstration. The video may be viewed online at <https://www.naspschools.org/learning-center/>. Please utilize this protocol during practice until the archers feel comfortable and confident in scoring. During the tournament, if an issue arises at the target where the students need help, teach them to simply raise their hands to alert a lane official for help. Lane officials are more than happy to assist!

30" Lane Rule & High/Low Draw - The archer's entire body, equipment, and quiver must stay within the two marks representing the archer's 30" lane. The official rules also state that "Encroaching beyond the archer's assigned half of the 30" in the shooting lane" is considered unsportsmanlike behavior and will result in disqualification. Make sure your archers fully understand this rule and it's consequences. It may be a great idea to practice using 30" so that the archer can see that this is plenty of room. Another issue that seems to need attention is avoiding a high or low draw. Archers must nock, pre-draw, draw and aim in a manner keeping the arrow pointed safely towards the target, below the top of the backstop curtain, and away from the floor at all times.

Safety - More than anything, we want all of the archers to have a wonderful tournament experience. To this goal, safety is our number one priority. Please make sure your team is well aware of all of the safety protocols and rules from whistle commands to handling equipment to moving about on the range. NASP® has created a short video to help remind archers of all safety rules and proper range protocols. The video may be viewed online at <https://www.naspschools.org/learning-center/>

Bounce outs - Replacement arrows will only be provided for bounce outs on scoring ends. Practice bounce outs remain as shot. If an arrow continues to bounce out, the archer's draw weight and draw length may not be sufficient to perform on par with the other archers. Unless there is an equipment issue, an arrow can be replaced twice. If it still does not stick the target, it will be scored zero points.

Centershot Offering Bullseye Practices

Centershot® will offer a NASP® BULLSEYE 10 meter and 15 meter non-scoring practice range during the state tournament. The practice range will be located in the South Wing A & B at the Centershot® Blue Tent. There will be a \$5 fee for 30 arrows to be paid at the Centershot® table located near the practice ranges.

Flight times should be reserved online at <https://m.signupgenius.com/#!/showSignUp/9040F45A9A928A3FB6-2022>
Walk-up flight times are also welcome if open spots are available.

Other information:

When reserving flight times online, please list archers by name.

Arrows will not be provided; ARCHERS MUST BRING THEIR OWN ARROWS.

Check-in at least 15 minutes prior to your flight time. Late arrival may result in a loss of the spot to standby archers.

Did you know?

Qualifying for this event - qualifies you for this event!

See tournament listing on www.nasptournaments.org for information on tier registration.

Prepare Your Equipment

When the archers hang their bows, the lane official(s) will immediately begin bow inspection. Coaches need to be readily available during this time in case a bow is found with a problem. It would be a good idea to inspect the team's bows sometime before entering the gym or even the day before in case they need attention. Please read over the equipment section in the rules to make sure the bows are all compliant. Most issues come up with the riser area of the bow. Remember, camouflage or custom painted bows that are not a solid color or any bow with marks or indentations on the face of the riser are required to either be painted a solid color (industrial Sharpie markers work great) or covered with a single piece of vinyl made to fit the riser. It's easier on the lane officials if you have this done prior to entering the gym. Lane officials themselves will not be attaching vinyl to the bow, this is the coach's responsibility. Kentucky's coaches usually do an amazing job in this area and it reflects at the national and world tournaments that our archers are always prepared!

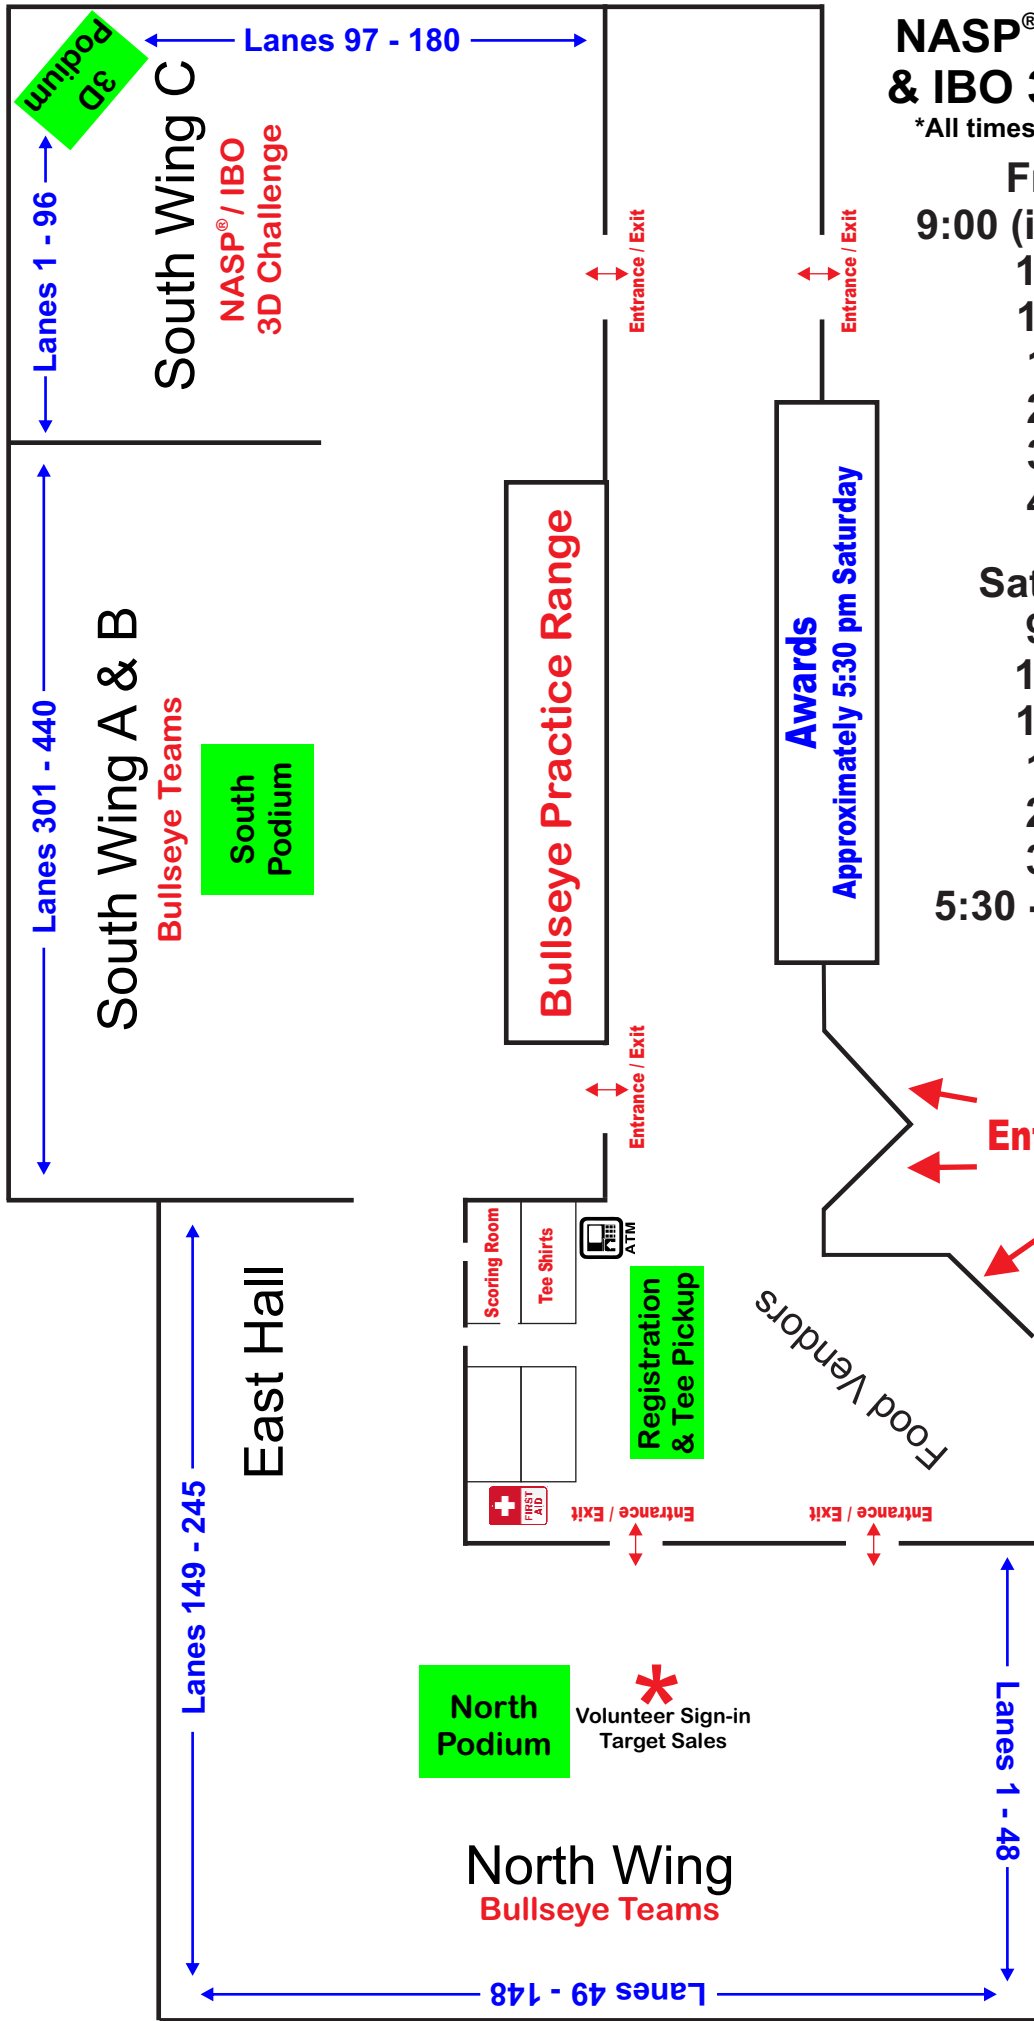

Know the Rules / Sportsmanship

The 2022 KY NASP Bullseye and 3D rules are located online at <https://www.fw.ky.gov/Education/Pages/NASP.aspx>. It is the coach's responsibility to know the rules and, to the best of his/her abilities, to ensure that every archer abides by those rules. Safety is the number one priority of KY NASP®, followed by good sportsmanship on everyone's part. Section 8 of the rules is dedicated to Sportsmanship alone! It would be a great idea to go over this section with your archers every year. Unfortunately, every year it seems more complaints are made about coaches or parents conducting themselves in an unflattering manner rather than archers. Remember, young archers are watching and learning from our behavior. Let's make sure our behavior is such that it teaches positive virtues.

Over time, tournament results and scores are generally forgotten but the actions of the archers, coaches, and spectators may be recalled for a very long time. During competitions, think about how you want to be remembered in the future.

Integrity. Honesty. Good Sportsmanship.
