

2025-2026 KyNASP® Certified PE Teacher Equipment Grant Information

- PE teachers must be trained as a Basic Archery Instructor (BAI) prior to the school Principal submitting the grant application.
- ALL Approved grant equipment orders must be placed at orders@naspschools.org by March 31, 2026.

The National Archery in the Schools Program (NASP®) is an in-school program designed to introduce archery to as many 4th through 12th grade students as possible during the school day, at some point in the year, as part of the school's physical education curriculum. These specific grants are for schools implementing in-school instruction by a certified physical education teacher in the school's gym as part of all appropriate grade-level physical education classes. Schools that introduce archery as part of the PE curriculum are eligible to create a competitive school archery team to participate in local school-hosted NASP® tournaments and may have the opportunity to participate in state and national events. All BAI PE teachers must report in-school numbers (the number of students introduced to archery as part of their 4th-12th grade PE classes) annually by the end of the school year to remain eligible for NASP® tournament participation.

As stated previously, the following grants are available only to schools with a Physical Education teacher certified as a Basic Archery Instructor who teaches introductory NASP® archery lessons as part of the school's PE curriculum in their school's gym. At least 10 hours of instruction must be implemented during the school year and include: determining eye dominance, the use of a Stringbow® to teach the Eleven Steps to Archery Success®, Safety Orientation, and the shooting of bows and arrows on a NASP® range.

A PE teacher can be trained as a Basic Archery Instructor (BAI) for free. They can find a course near them and sign up for a training at <https://www.naspbai.org>. On the day of the course, they must present a letter to the course instructor from the school's AD or Principal stating that they are the school's PE teacher and plan on implementing NASP® archery as part of their PE curriculum starting in the 2025-2026 school year.

- **New School Recruitment Grant:** \$3,000 off the purchase of a full startup kit valued between \$3500-\$3900 for new NASP® schools that have never participated and for first time equipment purchases. A minimum startup kit includes 10-12 bows, 5 targets, 10 dozen arrows, a bow rack, arrow curtain, and repair kit. Quivers are also available but not required to purchase. (New school recruitment grant requests can be made by the school Principal through February 28, 2026)
- **Reactivation Grant:** \$1500 off the purchase of \$2000+ in NASP® equipment for schools that have reported in-school instruction in the past but have not reported in-school instruction in two or more years, including last year. Reactivated schools in need of a full startup kit may be eligible for the \$3000 off the purchase of a full startup kit in certain circumstances. School Principals may contact lisa.johnson@ky.gov for more information. (Reactivation grant requests can be made by the school Principal through February 28, 2026)
- **Retention Grant:** either \$250 off the purchase of \$500+ or \$500 off the purchase of \$1000+ in NASP® equipment for current NASP® schools with a great need for assistance that reported in-school instruction during the 2024-2025 annual reporting period but did not receive any grants during that period. (Requests for retention grants can be made by the school Principal through December 1, 2025) These grants are very limited and will be awarded to schools in the most need and have the ability to introduce NASP® archery to the most students in their PE classes (2024-2025 in-school reporting will be considered.) Principals should explain the need on the application or email lisa.johnson@ky.gov or call 502-229-1861. (For example, a need could be replacing arrow rests on all bows with the new Genesis arrow rests.)

Schools interested in one of these grants must have their Principal complete and submit the following Grant Application to Lisa Johnson, Ky NASP® State Coordinator, at lisa.johnson@ky.gov. Principals may submit the grant application only **AFTER** their PE teacher is trained as a Basic Archery Instructor.

2025-2026 KyNASP® Equipment Grant Application

***Applications must be completed and emailed to lisa.johnson@ky.gov by the school's Principal AFTER the school's PE teacher is trained as a Basic Archery Instructor.

Grants are available only to schools starting August 15, 2025 with a certified PE teacher trained as a Basic Archery Instructor teaching in-school introductory NASP® archery lessons in their school gym as part of the school's PE curriculum. At least 10 hours of instruction must be implemented and include determining eye dominance, the use of a Stringbow® to teach the Eleven Steps to Archery Success®, Safety Orientation, and the shooting of bows and arrows on a NASP® range.

School Name: _____ County: _____
