Have a Big Time on beautiful Kentucky Lake!

- Condo rentals, townhouses, chalets, villas and cottages
- Full-service marina, 120 slips, gas, oil, boating supplies and boat rentals
- Campground, private beach and swimming pool
- Fishing guide service, live bait, tackle and cleaning station
- Grocery, gifts, snacks and beer.

Kentucky Lake's Big Bear Resort Celebrating 71 Years

1-800-922-BEAR (2327) • www.bigbearlakentuckylake.com
(301 KAR 1:201, KRS 150.010)

Fishing-related definitions not listed here are included in appropriate sections of this guide.

**Angling** means taking or attempting to take fish by hook and line in hand, rod in hand, jugging, set line or sport fishing trotline.

**Artificial baits** are lures or flies made of wood, metal, plastic, hair, feathers, preserved pork rind or similar inert materials and having no organic baits including dough bait, putty or paste type baits designed to attract fish by taste or smell.

**Authorization number** is the number assigned to a person in lieu of fishing or hunting license when the license is purchased over the phone or Internet.

**Black bass** includes largemouth, smallmouth, Kentucky (spotted) and Coosa bass.

**Culling**: Replacing a live fish in the daily creel limit with another fish of the same species.

**Daylight hours** begin one-half hour before sunrise and end one-half hour after sunset.

**Daily limit** is the maximum number of a particular species or group of species a person may legally keep in a day or have in possession while fishing.

**Fishing** is taking or attempting to take fish in any manner, whether or not fish are in possession.

**Lake** means impounded waters, from the dam upstream to the first riffle on the main stem river and tributary streams or as specified in regulation.

**Length** means the distance from the front tip of a fish’s lower jaw with mouth closed to the tip of its tail with the fish laid flat on a rule with its tail lobes squeezed together.

**Organic baits** are insects, minnows, fish eggs, worms, corn, cheese, cut bait or similar substances used as a lure.

**Possession limit** is the maximum number of unprocessed fish a person may hold after two days or more of fishing.

**Regulation** is a written document adopted and approved by the KDFWR Commission and approved by legislative committees.

**Release** means return of the fish, in the best possible condition, immediately after removing the hook, to the water from which it was taken in a place where the fish’s immediate escape shall not be prevented.

**Resident** is anyone who has established permanent and legal residence in Kentucky and residing here at least 30 days.

**Size limit** is the legal length a fish must be if it is in possession. (Fish length is measured from the tip of the closed lower jaw to the tip of the tail with fish laid flat on rule and tail lobes squeezed together.)

**Slot limit** means fish within a specified minimum and maximum size range must be released.

**Single hook** is a hook with only one point.

**Tenant** is any resident sharecropper or lessee who lives and works on farmland owned by his/her landlord.

**Trophy catfish** is a blue or flathead catfish 35 inches or longer or a channel catfish 28 inches or longer.
ABOUT THIS GUIDE
This is a SUMMARY of the laws regarding fishing and boating. This guide is intended solely for informational use. It is not a reprint of any referenced statute or regulation in its entirety and should not be used as such. Questions about the information contained in this guide should be directed to the Kentucky Department of Fish and Wildlife Resources BEFORE engaging in the activities referenced. Actual wording of any Kentucky Revised Statute (KRS) or Kentucky Administrative Regulation (KAR) can be viewed at legislature.ky.gov.

OTHER GUIDES AVAILABLE
Kentucky Fish and Wildlife also produces regulation guides for spring and fall hunting and trapping. Call 1-800-858-1549 weekdays, look for a copy of these regulation guides where hunting licenses are sold, or log on to fw.ky.gov.

Landowner permission required for hunting and fishing. A person shall not enter upon the lands of another to hunt, fish or trap without the oral or written permission of the landowner, tenant or person who has authority to grant permission. Those who fail to obtain permission are subject to arrest and prosecution. Railroad tracks and rights of way are privately owned property and permission to hunt, fish or trap must be obtained prior to entry. (KRS 150:092)
NEW THIS YEAR

The items highlighted in bright blue throughout this guide are a quick overview of the changes to this year’s regulations.

FISHING
• For regulatory purposes, the upper lake boundaries now defined by landmarks on these reservoirs:
  - Cave Run Lake: Scott’s Creek to the KY 801 culvert; Beaver Creek to the KY 1274 culvert; North Fork Creek to the confluence of Craney Creek; Licking River to the KY 772 bridge; Ramey Creek to include the pool of water north of KY 801.
  - Green River Lake: Green River to Snake Creek Boat Ramp; Robinson Creek to the KY 76 bridge; Casey Creek to Arnold’s Landing Boat Ramp. Rough River Lake: Rough River to the KY 84 bridge.
• Catfish: 12-inch minimum size limit, no daily creel limit on Higginson-Henry WMA lakes, Lake Pennyrile and Taylorsville Lake WMA ponds. No gifting of catfish to businesses.
• Trophy catfish regulations in effect: anglers may only keep one trophy catfish per species per day, whether using traditional or non-traditional fishing methods (see Trophy catfish definition for more details).
• Barren River Lake: 10-inch minimum size limit on crappie.
• Boone Tract, Kentucky River WMA lakes (except Benjy Kinman Lake): Crappie: Now under statewide regulations, 20-fish daily creel limit, no minimum size limit.

The 4-acre lake on the Boone tract is now known as Prather Pond.
• Cumberland River from Wolf Creek Dam to the Tennessee state line: Cutthroat trout: 20-inch minimum size limit, one-fish daily creel limit.
• Gunpowder Creek (Boone County): All trout caught from October 1 through March 31 shall be immediately released and only artificial baits may be used during this period.
• Lake Barkley tailwater: Fishing prohibited near the mouth of the lock chamber as designated by signs.
• Middle Fork, Red River: Catch and release trout regulations removed.

Kentucky Department of Fish and Wildlife Resources

DEPARTMENT HISTORY
The Kentucky Department of Fish and Wildlife Resources is a state agency within the Tourism, Arts & Heritage Cabinet. The department was originally established in 1912 as the Kentucky Game and Fish Commission to protect the state’s dwindling fish and game populations. Today, Kentucky has more deer and bald eagles than during Daniel Boone’s day.

DEPARTMENT FUNDING
During the height of the Great Depression, hunters asked Congress to impose a tax on their sporting equipment and ammunition to help pay for conservation. Following World War II, anglers supported similar excise taxes on fishing equipment and boat fuel.

Today, Kentucky Fish and Wildlife relies on these federal funding sources to complement its own revenue raised through the sale of hunting and fishing licenses to support the department and its programs.

DEPARTMENT’S ROLE IN CONSERVATION
Kentucky Fish and Wildlife does much more than just restore species once decimated from the state’s landscape. The department is a research-intensive agency staffed with professional biologists who help guide decisions that benefit all fish and wildlife species. The department’s outreach programs help educate youth about conservation. Employees work to improve hunter and angler opportunities through boat ramp construction, public land acquisition, stream restoration and more. Conservation officers enforce laws and help protect the public.

A nine-member citizen board appointed by the governor and confirmed by the state Senate receives input from the public, biologists and other interested parties to recommend regulations governing fish and wildlife. Regulations proposed by the Kentucky Fish and Wildlife Commission must be approved by the Kentucky General Assembly. Go online to fw.ky.gov for meeting dates and agendas.
STATEWIDE REGULATIONS

Some waterbodies have different size and creel limits, please refer to the “Special Fishing Regulations” section for more details. There are no size or creel limits for rough fish, unless statewide or special regulations apply.

For daily creel and fishing license purposes, one fishing day equals one calendar day. **Except for trout,** anglers may cull fish of a particular species until reaching the daily creel limit. Any additional fish caught in excess of the daily creel limit must be released immediately.

**Trophy catfish regulations in effect:** anglers may only keep one trophy catfish per species per day, whether using traditional or non-traditional fishing methods (see Trophy catfish definition for more details).

* Singly or combined; a total of these species  ** No more than 5 fish in the daily creel limit may be more than 15 inches long.  *** Except for the Cumberland River downstream of Wolf Creek Dam and the upper section of Hatchery Creek, see Special Regulations section for details.

### MEASURING FISH

(301 KAR 1:201)

Measure all fish from the tip of the lower jaw (closed) to the tip of the tail with fish laid flat on rule with tail lobes squeezed together. **Fish not of legal size must be returned immediately to the waters from which they were taken in the best possible physical condition.**

---

**Q:** How is a daily creel limit different than a possession limit?

**A:** The daily creel limit is the number of a particular sport fish species you may keep in one day’s fishing. A possession limit is two times the daily creel limit for all fish species with a daily creel limit and excludes processed fish.
SPECIAL FISHING REGULATIONS

(301 KAR 1:080, 1:180, 1:201, 2:222 4:100, KRS 150.010, 150.025)

SPECIAL REGULATION WATERS LISTED ALPHABETICALLY

The public waters listed below have different size and/or creel limits than statewide regulations allow. Statewide size and creel limits apply unless otherwise mentioned below. Special boating regulations are listed in the Boating section of this guide.

Some privately owned waters may have special size and creel limits as posted by signs.

FINs LAKES:

Lakes in the Fishing In Neighborhoods (FINs) program have uniform regulations for daily creel and size limits:
• **Rainbow Trout:** 5-fish daily limit.
• **Catfish:** 4-fish daily limit.
• **Sunfish:** 15-fish daily limit.
• **Largemouth Bass:** 15-inch minimum size limit, 1 fish daily limit.
• Possession or use of live shad for bait is prohibited.

The following FINs lakes are now under these special regulations:

- Alexandria Community Park Lake (Campbell County), Anderson County Community Park Lake (Anderson County), Bloomfield Park Lake (Nelson County), Brickyard Pond (Knox County), Camp Ernst Lake (Boone County), Carlson Lake (Ft. Knox, Meade County), Cherokee Park Lake (Jefferson County), Easy Walker Park Pond (Montgomery County), Fisherman’s Park Lakes (Jefferson County), Flemingsburg Old Reservoir (Fleming County), Jacobson Park Lake (Fayette County), James D. Beville Park Lake (Grayson County), Kentucky Horse Park Lakes (Fayette County), Kess Creek Park Lake (Graves County), Kingdon Come State Park Lake (Harlan County), Lake Mingo (Jessamine County), Lake Montgomery (formerly Bob Noble Park Lake), Lake Pollywog (Grant County), Leary Lake (Grant County), Logan Hubble Park Lake (Lincoln County), Lower Sportman’s Lake (Franklin County), Lusby Lake (Scott County), Madisonville City Park Lakes (Hopkins County), Maysville-Mason County Recreation Park Lake (Mason County), Middleton Mills Long Pond and Shelterhouse Ponds (Kenton County), Mike Miller Park Lake (Marshall County), Miles Park Lakes (Jefferson County), Millennium Park Pond (Boyle County), Panther Creek Park Lake, (Davies County), Prisoner’s Lake (Kenton County), Rotary Park Lake (Hickman County), Scott County Park Lake (Scott County), Southgate Lake (Campbell County), Southland Christian Church Lake (Jessamine County), Three Springs Lake (Warren County), Tom Wallace Park Lake (Jefferson County), Upper Sportsman’s Lake (Franklin County), Waverly Park Lake (Jefferson County), Waymond Morris Park Lake (Davies County), Whitehall Park Lake (Madison County), Yellow Creek Park Lake (Davies County)

There is now a 12-inch minimum size limit on catfish on the following lakes stocked by Kentucky Fish and Wildlife:

A.J. Jolly Lake (Campbell County), Audubon State Park Lake (Henderson County), Ballard WMA Gravel Pit Pond (Ballard County), Beaver Lake (Anderson County), Benjy Kinman Lake (Henry County), Bert T. Combs Lake (Clay County), Beulah Lake (Jackson County), Big Bone Lick State Park Lake (Boone County), Blackberry Creek Park Pond (Pike County), Bolz Lake (Grant County), Briggs Lake (Logan County), Buckhorn Pen Lake (Grant County), Cannon Creek Lake (Bell County), Carnico Lake (Nicholas County), Carpenter Lake (Davies County), Carter Caves (Smoky Valley Lake) (Carter County), Cedar Creek Lake (Lincoln County), Central Kentucky WMA Lake (Madison County), Chenoa Lake (Bell County), Clear Creek Lake (Bath County), Corinith Lake (Grant County), Cranks Creek Lake (Harlan County), Doe Run Valley Lake (Kenton County), Eagle Lake (Rowan County), Elk Horn Park Pond (Floyd County), Elmer Davis Lake (Owen County), Fagan Branch Lake (Marion County), Fishpond Lake (Letcher County), Fleming WMA Lake (Fleming County), Flemingsburg New City Reservoir (Fleming County), Fort Knox Crystal Lake (Hardin County), Fort Knox Lower Douglas Lake (Hardin County), Fort Knox Sanders Lake (Hardin County), Fort Knox Upper Douglas Lake (Hardin County), General Butler State Park Lake (Carroll County), Grants Branch Lake (Pike County), Greenbo Lake (Greenup County), Guist Creek Lake (Shelby County), Higginson-Henry WMA lakes (Union County), Highspoint Lake (Harlan County), Jenkins City Reservoir (Letcher County), Jericho Lake (Henry County), Kentucky River WMA, Boone Tract: Prather Pond and 6-acre pond, Kincaid Lake (Pendleton County), Kingfisher Lakes (Davies County), Kleber WMA Lake (Franklin County), Lake Beshear (Caldwell County), Lake Chumley (Lincoln County), Lake George (Crittenden County), Lake Linville (Rockcastle County), Lake Luzerne (Muhlenberg County), Lake Malone (Muhlenberg County), McCracken County, Lake Pennyryle (Christian County), Lake Reba (Madison County), Lake Shelby (Shelby County), Laurel Creek Reservoir (McCreary County), Liberty City Reservoir (Casey County), Lincoln Homestead Lake (Washington County), Long Run Park Lake (Jefferson County), Lower Thomas Lake (Owen County), Marion County Lake (Marion County), Milo Lake (Martin County), Martin County Reservoir (Martin County), Martins Fork Lake (Harlan County), McDougall Lake (Larue County), McNeely Lake (Jefferson County), Metcalfe County Park Lake (Metcalfe County), Mill Creek Lake (Monroe County), Mill Creek Lake (Powell County), New Haven Optimist Club Lake (Nelson County), Olive Hill Lake (Carter County), Panbowl Lake (Breathitt County), Peabody WMA Lakes (Muhlenberg, Hopkins, Ohio counties), Pikeville City Lake (Pike County), Rebel Trace Lake (Menifee County), Reformatory Lake (Oldham County), Shandy Hollow Lake (Warren County), Spurlington Lake (Taylor County), Sympton Lake (Nelson County), Taylorsville WMA ponds (Spencer County), Thurman Hutchins Park (Jefferson County), Vastwood Park Lake (Hancock County), Washburn Lake (Ohio County), Watterson Park Lake (Jefferson County), West Fork Drakes Creek Lake (Simpson County), West Kentucky WMA Lakes (McCracken County), Wilburn Park Lake (Oldham County), Wilgreen Lake (Madison County), Wil...
lisburg Lake (Washington County), Wil-
lisburg Park Pond (Washington Coun-
ty), Wood Creek Lake (Laurel County),
Yellowbank WMA Ponds (Breckinridge County)

BARK CAMP CREEK
Whitley County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

BARKLEY, KENTUCKY LAKES
(and their connecting canal)
• Crappie: 10-inch minimum size limit.
• Largemouth and Smallmouth Bass: 15-inch minimum size limit.

BARKLEY TAILWATER – See Cum-
thewes Mill Road bridge and Peter Creek
9-inch minimum size limit.

BARREN RIVER upstream of
Barren River Lake; downstream of
the lake to Lock and Dam 1 and all
tributaries
• Walleye: 2 fish daily creel limit; 18- to
26-inch protective slot limit. All wall-
• Blue and Channel Catfish: 15-fish
daily creel limit, only 1 fish may be
longer than 25 inches.
• Crappie: 10-inch minimum size limit.
• Largemouth and Smallmouth Bass: 15-inch minimum size limit except 1
fish in the daily creel limit or 2 in the
possession limit may be less than 15
inches long.
• Walleye: 2 fish daily creel limit; 18- to
26-inch protective slot limit. All wall-
eye caught from 18 to 26 inches long
must be immediately released.

BEAVER LAKE
Anderson County
Possession or use of live shad for
bait is prohibited.

BEECH FORK RESERVOIR
Powell County
• Bluegill: 15-fish daily creel limit.
• Largemouth Bass: 15-inch minimum size limit.

BERT COMBS LAKE
Clay County
Possession or use of live shad for
bait is prohibited.

BIG BONE CREEK
Boone County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

BOLTZ LAKE
Grant County
Possession or use of live shad for
bait is prohibited.

BUCKHORN LAKE
• Largemouth and Smallmouth Bass: 15-inch minimum size limit.
• Muskellunge: 40-inch minimum size limit.
• Crappie: 9-inch minimum size limit.

CANE CREEK
Laurel County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

CARNICO LAKE
Nicholas County
• Largemouth Bass: 15-inch minimum size limit.
• Bluegill and other sunfish: 15-fish
daily creel limit.

Did you know?
Camping is prohibited on KDFWR
owned or managed lakes.

CARR CREEK LAKE
• Crappie: 9-inch minimum size limit.
• Largemouth and Smallmouth Bass: 15-inch minimum size limit.

CARTER CAVES STATE PARK LAKE
(also called Smoky Valley Lake)
Fishing during daylight hours only.
Possession or use of live shad for
bait is prohibited.
• Largemouth Bass: 12- to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inch-
es in length must be immediately re-
leased; 6 fish daily creel limit, only 1
fish may be longer than 15 inches.

CASEY CREEK
Trigg County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

CAVE RUN LAKE
Gigging and snagging prohibited in the main lake and all tributaries up to the first riffle. Lake upper boundaries: Scott’s Creek to the KY 801 culvert; Beaver Creek to the KY 1274 culvert; North Fork Creek to the confluence of Craney Creek; Ramey Creek to in-
clude pool of water north of KY 801.
• Largemouth Bass: 13 to 16-inch protective slot limit. All largemouth bass caught between 13 and 16 inches in length must be released immediately.
• Smallmouth Bass: 18-inch minimum size limit.
• Muskellunge: 36-inch minimum size limit.

Q: Is fishing allowed around a
dock or a marina?
A: It depends. Public marinas
on U.S. Army Corps of Engineers
Lakes have contractual agreements
that address lease space on public
waters. The Corps presently allows
the marina owners or operators to
post signs that prohibit fishing with-
in 150 feet of their floating struc-
tures. These agreements do not pro-
hibit a person from fishing in their
boat rental slip. This policy does not
apply to privately owned boat docks
on Corps lakes.
CEDAR CREEK LAKE
Lincoln County
- Largemouth Bass: 20-inch minimum size limit, 1 fish daily creel limit.

CHIMNEY TOP CREEK
Wolfe County
Only artificial baits may be used.

CLEAR CREEK
Bell County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

CORINTH LAKE
Grant County
Possession or use of live shad for bait is prohibited.

CUMBERLAND GAP NATIONAL HISTORICAL PARK
(301 KAR 1:035)
Special fishing regulations are in effect on Cumberland Gap National Historical Park. For complete fishing information on this area contact: Cumberland Gap National Historical Park, P.O. Box 1848, Middlesboro, KY 40965, phone (606) 248-2817.

CUMBERLAND RIVER upstream from Cumberland Falls and all tributaries:
- Walleye: 2 fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

CUMBERLAND RIVER from Wolf Creek Dam to the Tennessee state line
All licensed anglers must possess a trout permit on this portion of Cumberland River. This includes Hatchery Creek and all tributaries up to the first riffle.

Anglers may not attract or chum trout with bait, corn or other attractants designed to draw numbers of trout to a specific area. This includes all tributaries up to the first riffle and in Hatchery Creek. For new regulations on Hatchery Creek, refer to the Hatchery Creek section on page 7.
- Brown Trout or Cutthroat Trout: 20-inch minimum size limit, 1 fish daily creel limit, also applies to all tributary streams, except Hatchery Creek.
- Rainbow Trout: 15 to 20-inch protective slot limit. All trout caught between 15 and 20 inches in length must be immediately released. Five fish daily limit, only one rainbow trout may be longer than 20 inches. Also applies to all tributary streams, except Hatchery Creek.
- Brook Trout: 1 fish daily creel limit with a 15-inch minimum size limit. Also applies to all tributary streams, except Hatchery Creek.

CUMBERLAND RIVER from Lake Barkley Dam downstream to confluence with Ohio River
Gigging and snagging only permitted downstream of U.S. 62 bridge with a daily creel limit of 8 fish. Harvesting of sportfish by gigging or snagging is prohibited. All snagged or gigged rough fish including paddlefish, with the exception of shad, herring or Asian carp, shall be taken into possession and not be culled. Snagged or gigged fish must not be disposed of on the bank. Disposing of fish on the bank is littering and subject to a fine. See the gigging and snagging section on page 11 of this guide for additional information. Snagged paddlefish or their roe cannot be sold. Fishing prohibited at the mouth of the lock chamber at Barkley Dam as designated by signs.

DALE HOLLOW LAKE
- Crappie: 10-inch minimum size limit, 15 fish daily creel limit.
- Black Bass creel: includes largemouth, smallmouth and Kentucky (spotted) bass – 5 fish daily creel limit on black bass singly or combined, only two of which may be smallmouth bass.
- Largemouth Bass: 15-inch minimum size limit.
- Smallmouth Bass: 16 to 21-inch protective slot limit. One fish over 21 inches and one fish under 16 inches may be kept daily.
- Sauger: 10 fish daily creel limit.
- Rainbow and Brown Trout: 7-fish aggregate daily creel limit.
- Walleye: 16-inch minimum size limit, 5 fish daily creel limit.

DEWEY LAKE
- Largemouth and Smallmouth Bass: 15-inch minimum size limit.
- Blue and Channel Catfish: 15 fish daily creel limit, only 1 fish may be longer than 25 inches.
- Muskelunge: 36-inch minimum size limit.

DIX RIVER from Herrington Lake Dam downstream for two miles
Only artificial baits shall be used.

DOE RUN LAKE
Kenton County
Possession or use of live shad for bait is prohibited.
- Largemouth Bass: 15-inch minimum size limit, 3 fish daily creel limit.
- Channel Catfish: Four fish daily creel limit.

DOG FORK
Wolfe County
Only artificial baits with a single hook shall be used. Brook trout must be immediately released.

EAST FORK INDIAN CREEK
Menifee County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

ELKHORN CREEK in Franklin County from confluence of North and South forks downstream to Kentucky River
- Largemouth and Smallmouth Bass: 12 to 16-inch protective slot limit. Largemouth and smallmouth bass caught between 12 and 16 inches in length must be immediately released. Daily limit of 6 may include no more than 2 fish longer than 16 inches.
- For regulatory purposes, the boundary of Elkhorn Creek is a permanent marker just below the first shoal upstream from its confluence with the Kentucky River.

ELK SPRING CREEK
Wayne County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

ELMER DAVIS LAKE
Owen County
Possession or use of live shad for bait is prohibited.
- Largemouth Bass: 12 to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.
FAGAN BRANCH LAKE (also called Lebanon City Lake)
Marion County
• Largemouth and Smallmouth Bass: 12 to 15-inch protective slot limit. All largemouth and smallmouth bass caught between 12 and 15 inches in length must be released immediately.

FISHTRAP LAKE
• Largemouth and Smallmouth Bass: 15-inch minimum size limit.
• Crappie: 9-inch minimum size limit.
• Blue and Channel Catfish: 12-inch minimum size limit, 3 fish daily creel limit. All wall-eyed caught from 18 to 26 inches long must be immediately released.

FLOYD’S FORK from U.S. 60 bridge downstream to U.S. 150 bridge
Jefferson County
• Largemouth and Smallmouth Bass: 15-inch minimum size limit, 1 fish daily creel limit.
• Rainbow Trout: All trout caught from Oct. 1 through Mar. 31 must be immediately released and only artificial baits shall be used during this period.

GENERAL BUTLER STATE PARK LAKE
Carroll County
Possession or use of live shad for bait is prohibited.
• Largemouth Bass: 15-inch minimum size limit, 3 fish daily creel limit.
• Channel Catfish: 4 fish daily creel limit.

GOLDEN POND (Land Between The Lakes National Recreation Area)
• Channel Catfish: 15-inch minimum size limit, 5 fish daily creel limit.

GRAYSON LAKE
• Largemouth and Smallmouth Bass: 15-inch minimum size limit.

GREENBO LAKE
Greenup County
Possession or use of live shad for bait is prohibited.
• Bluegill and other sunfish: 15 fish daily creel limit.
• Areas marked by signage and buoys near the Jesse Stuart Lodge are periodically closed to fishing.

GREEN RIVER LAKE
• Largemouth and Smallmouth Bass: 15-inch minimum size limit; 1 fish daily creel limit.
• Bluegill and other sunfish: 15 fish daily creel limit.
• Crappie: 9-inch minimum size limit.
• Muskegg: 36-inch minimum size limit.

GUNPOWDER CREEK
Boone County
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

HATCHERY CREEK
Russell County
Anglers must possess a trout permit to fish Hatchery Creek.
• Brook, Rainbow, Cutthroat and Brown Trout: Upper section: As designated by signs, 5 trout aggregate daily creel limit, no minimum size limit. Lower section: Catch and release only and only artificial baits may be used. The lower boundary of Hatchery Creek is delineated as a straight line between opposite points where Hatchery Creek meets the main stem of the Cumberland River.

KENTUCKY, BARKLEY LAKES (and their connecting canal)
• Crappie: 10-inch minimum size limit.
• Largemouth and Smallmouth Bass: 15-inch minimum size limit.

KENTUCKY LAKE TAILWATER – see Tennessee River

KENTUCKY RIVER, upstream of Lock and Dam 14, the North Fork and tributaries including Carr Fork below Carr Creek Lake along with the Middle and South Forks and all tributaries
• Walleye: 2 fish daily creel limit, an 18-to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

KENTUCKY RIVER WMA BOONE TRACT, Henry County
Benji Kinman Lake:
• Catfish: 12-inch minimum size limit, no daily creel limit.
• Idle speed only.
Prather Pond and 6-acre pond:
• Catfish: 12-inch minimum size limit, 4 fish daily creel limit.

LAKE BLYTHE
Christian County
• Largemouth Bass: 12 to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

LAKE CHUMLEY
Lincoln County
Fishing during daylight hours only.

LAKE CUMBERLAND
The boundaries of Lake Cumberland are defined as Cumberland Falls on the Cumberland River, Devils Jump on the Big South Fork, the Narrows of Rockcastle River and Laurel River Lake Dam on Laurel River.
• Crappie: 10-inch minimum size limit.
• Lake Sturgeon: Catch and release only.
• Largemouth Bass: 15-inch minimum size limit.
• Smallmouth Bass: 18-inch minimum size limit.
• Striped Bass: 22-inch minimum size limit, 2 fish daily creel limit.

LAKE JERICHO
Henry County
Possession or use of live shad for bait is prohibited.
• Largemouth Bass: 15-inch minimum size limit.

LAKE MALONE
• Largemouth Bass: 12 to 15-inch protective slot limit. All largemouth bass caught between 12 and 15 inches in length must be immediately released.

LAKE REBA
Madison County
Possession or use of live shad for bait is prohibited.

LAKE SHELBY
Shelby County
• Largemouth Bass: 15-inch minimum size limit, 3 fish daily creel limit.
• Channel Catfish: 4 fish daily creel limit.
LAND BETWEEN THE LAKES NATIONAL RECREATION AREA  
(301 KAR 1:031)  
Special fishing regulations are in effect for ponds and small lakes within Land Between The Lakes National Recreation Area. For complete fishing information on this area, anglers should contact: Land Between The Lakes National Recreation Area, Golden Pond, KY 42231, phone (270) 924-2000.

LAUREL RIVER LAKE  
• Largemouth Bass: 15-inch minimum size limit.  
• Smallmouth Bass: 18-inch minimum size limit, 2 fish daily creel limit.  
• Crappie: 9-inch minimum size limit, 15 fish daily creel limit.

LEARY LAKE  
Grant County  
Fishing during daylight hours only.

LEBANON CITY LAKE – see Fagan Branch Lake

LEFT FORK, BEAVER CREEK  
Floyd County  
All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

LEVISA FORK and all tributaries upstream of Fishtrap Lake  
• Walleye: 2 fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

LINCOLN HOMESTEAD STATE PARK LAKE  
Washington County  
Fishing during daylight hours only. Possession or use of live shad for bait is prohibited.  
• Channel Catfish: 4 fish daily creel limit.  
• Largemouth Bass: 15-inch minimum size limit; 3 fish daily creel limit.

MAMMOTH CAVE NATIONAL PARK  
Special fishing regulations are in effect for ponds, streams and Green River within Mammoth Cave National Park. For complete fishing information on this area, anglers should contact: (270) 758-2180.

MARION COUNTY LAKE  
Possession or use of live shad for bait is prohibited.  
• Largemouth Bass: 15-inch minimum size limit.

MARTIN’S FORK LAKE and all tributaries  
• Walleye: 2 fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

McNEELY LAKE  
Jefferson County  
Possession or use of live shad for bait is prohibited.

MIDDLE FORK, RED RIVER  
Powell County  
Seasonal catch and release regulations now removed.

MILL CREEK LAKE  
Powell and Wolfe counties  
Possession or use of live shad for bait is prohibited.  
• Largemouth Bass: 15-inch minimum size limit; 3 fish daily creel limit.

NOLIN RIVER LAKE  
Lake upper boundary is the Wheelers Mill Road bridge in the Nolin River arm and to the KY 728 bridge in the Bacon Creek arm.  
• Crappie: 9-inch minimum size limit.  
• Largemouth and Smallmouth Bass: 15-inch size limit, except 1 fish in the daily limit or 2 in the possession limit may be less than 15 inches long.

OHIO RIVER – see also, “Bordering Waters” page 15  
• White Bass, Striped Bass and their Hybrids: 30 fish daily creel limit, only 4 fish may be 15 inches or longer.  
• Blue, Channel and Flathead Catfish: Anglers may keep one blue catfish and one flathead catfish 35 inches or longer and one channel catfish 28 inches or longer daily. No daily creel limit on catfish under those limits.

PAINTSVILLE LAKE  
• Smallmouth Bass: 18-inch minimum size limit.

PAINTSVILLE LAKE TAILWATER  
from the KY 40 bridge downstream to first U.S. 460 bridge  
Johnson County  
16-inch minimum size limit and 1 fish daily creel limit on trout and only artificial baits shall be used.

PARCHED CORN CREEK  
Wolfe County  
Only artificial baits with single hook shall be used. Brook trout must be immediately released.

PEABODY WMA LAKES  
In addition to a fishing license, a $15.00 user permit is required of persons age 16 and over while on Peabody WMA. Permits can be purchased where fishing licenses are sold. Fishing open Mar. 16 - Oct. 14 on Goose, Island and South Lake, all other lakes open year-round.

PIKEVILLE CITY LAKE  
Pike County  
• Largemouth Bass: All largemouth bass caught must be immediately released.

POOR FORK and its tributaries  
Letcher County  
Downstream to the first crossing of Hwy. 932, only artificial baits with single hook shall be used. Brook trout must be immediately released.
ROCK CREEK from Bell Farm bridge upstream to Tennessee state line McCreary County
   All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.

ROCKCASTLE RIVER WMA Pulaski County
   All Ponds Collectively:
   • Largemouth Bass: 15-inch minimum size limit, 1-fish daily creel limit.
   • Bluegill and other Sunfish: 10-fish daily creel limit.
   • Catfish: 4-fish daily creel limit.
   • Crappie: 15-fish daily creel limit.

ROUGH RIVER LAKE
   Lake upper boundary: Rough River to the KY 84 bridge.
   • Crappie: 9-inch minimum size limit.
   • Largemouth and Smallmouth Bass: 15-inch minimum size limit except 1 fish in the daily creel limit or 2 in the possession limit may be less than 15 inches long.

SHANTY HOLLOW LAKE Warren County
   Possession or use of live shad for bait is prohibited.
   • Largemouth Bass: 15-inch minimum size limit.

SHILLALAH CREEK Bell County
   Outside the Cumberland Gap National Park as posted, only artificial baits with single hook shall be used. Brook trout must be immediately released.

SPORTSMAN’S LAKES Franklin County
   Fishing during daylight hours only.

SPURLINGTON LAKE Taylor County
   Possession or use of live shad for bait is prohibited.

SWIFT CAMP CREEK Clifty Wilderness, Wolfe County
   All trout caught from October 1 through May 31 must be released immediately and only artificial baits shall be used during this period.

SYMPSON LAKE Nelson County
   • Largemouth Bass: 15-inch minimum size limit.

TAYLORSVILLE LAKE
   Lake upper boundary is Dry Dock Road on Salt River.
   • Crappie: 10-inch minimum size limit, 15 fish daily creel limit.
   • Largemouth and Smallmouth Bass: 15-inch minimum size limit.
   • Blue and Channel Catfish: 15-fish daily creel limit, only 1 fish may be longer than 25 inches.

TENNESSEE RIVER from Kentucky Lake Dam downstream to confluence with Ohio River
   The area from Kentucky Dam to the new U.S. 62 bridge will be open to snagging 24 hours per day from January 1 through May 31. From June 1 through December 31, the area is open to snagging from sunset to sunrise. The area of the Tennessee River from the new U.S. 62 bridge to the I-24 bridge is closed to snagging year round. The area from the I-24 bridge to the confluence with the Ohio River is open to snagging year round. There is now a daily snagging creel limit of 8 fish in aggregate and shall not exceed the daily creel limit for any sport fish in which the creel limit is under 8 fish per day. Snagging must cease if any sport fish daily creel limit is attained. All fish snagged including paddlefish, except shad, herring or Asian carp, must be taken into possession and not culled. Snagged fish must not be disposed on the bank. This action is littering and subject to a fine. Snagged paddlefish or their roe cannot be sold. Giggging is prohibited in the Tennessee River below Kentucky Dam. See the Giggging and Snagging section on page 11 for more information.

TRAMMEL CREEK Allen County
   All trout caught from October 1 through March 31 must be immediately released and only artificial baits shall be used during this period.
   • Rainbow Trout: 5 fish daily creel limit.

WILLISBURG PARK POND Washington County
   • Channel Catfish: 4-fish daily creel limit.
   • Largemouth Bass: 15-inch minimum size limit, 1-fish daily creel limit.
   • Sunfish: 15-fish daily creel limit, no minimum size limit.

WOOD CREEK LAKE Laurel County
   • Largemouth and Smallmouth Bass: 15-inch minimum size limit.
   • Walleye: 2 fish daily creel limit; 18- to 26-inch protective slot limit. All walleye caught from 18 to 26 inches long must be immediately released.

YATESVILLE LAKE
   • Largemouth and Smallmouth Bass: 15-inch minimum size limit.

OTHER SPECIES

BULLFROGS (301 KAR 1:082)
   The taking season for bullfrogs opens at noon on the third Friday in May (May 15, 2020) and runs through Oct. 31. If a gun or bow and arrow are used, a hunting license is required. If frogs are taken by pole and line, a fishing license is required. If frogs are taken by gig or by hand, then either a hunting or fishing license is valid. The daily noon-to-noon creel limit for bullfrogs is 15. The possession limit is 30.

TURTLES (301 KAR 1:058)
   Anglers may take snapping turtles (except alligator snapping turtles) and softshell turtles year round by the same methods legal for taking rough fish species or with a turtle trap. Commercial fishing gear may not be used to take turtles. A hunting license is required when taking turtles by gun or by bow and arrow. Otherwise a fishing license is required. Turtles can not be sold.
   Turtle traps may be one of two kinds: either a barrel or drum with a tilting trigger board or a floating log raft with an enclosed twine or wire mesh bag. Turtle traps must be inspected daily. All turtles must be removed daily except one decoy turtle
may remain. Any other species (except soft shelled and snapping turtles) caught in a turtle trap must be released unharmed.

**GRASS CARP HARVEST PROHIBITED** (301 KAR 1:201)
Harvesting grass carp is prohibited in any lake owned or managed by the Kentucky Department of Fish and Wildlife Resources. Anglers who catch a grass carp from one of these lakes must immediately return the fish to the water where it was caught. Grass carp are used to control aquatic vegetation.

**LIVE BAIT FOR PERSONAL USE** (301 KAR 1:130, 1:122)
No live fish, live bait fish or live bait organisms that are not native or established in Kentucky waters shall be bought, sold, possessed, imported, or in any way used or released into waters of this Commonwealth. Blueback herring are not native to Kentucky and may not be imported or possessed in this state.

Holders of sport fishing licenses may take live bait from public waters and may possess up to 500 live bait fishes which include shad (except on lakes where possession or use of live shad is prohibited) and herring, 500 crayfish, 25 spring lizards or dusky salamanders, 5 frogs (other than bullfrogs), 5 tadpoles, 100 native lampreys, 500 other aquatic invertebrate organisms other than mussels, and any number of unshelled Asiatic clams. Live wild caught Asian carp, herring and shad, as well as the species mooneye and goldeye, may only be used in the waters from which they were collected. A commercial license is required to take live bait from public waters open to commercial fishing for the purpose of selling.

Regardless of size or how obtained, it is illegal to use any sport fish for bait (except redear sunfish less than 6 inches long). Live bait fishes are defined as redear sunfish less than 6 inches long and rough fish except blackside dace, palezone shiner, Cumberland darter, relict darter and tuxedo darter. Also, see page 21 for a description of these protected fish species. Bluegills are not sport fish and may be taken for bait as described above.

Live bait may be taken with the following gear:

- **Dip Nets:** Maximum size of 3 feet in diameter is legal statewide.
- **Minnow Traps:** Maximum legal size statewide: 3 feet long, 18 inches in diameter, 1-inch openings for catching.
- **Seines:** Maximum legal size statewide: 10 feet long, 4 feet deep, ¼-inch bar mesh. Maximum legal size in the Ohio and Mississippi rivers and Kentucky and Barkley lakes: 30 feet long, 6 feet deep and ¾-inch bar mesh.
- **Sport Cast Nets:** Maximum sport cast net size is 20 feet in diameter with maximum 1-inch bar mesh statewide except in the following waters. Sport cast nets prohibited in: 1) lakes having fewer than 500 surface acres, 2) Hatchery Creek in Russell County.

All sport fish incidentally taken while capturing live bait with seines, dip nets, cast nets or minnow traps must be released immediately unharmed into the water.

**NON-TRADITIONAL FISHING METHODS**

**SPORT FISHING TROTLINES, JUGGING and SET LINES (LIMB LINES)** (301 KAR 1:410; KRS 150.010)
A sport fishing trotline is a line with no more than 50 single or multi-barbed baited hooks that must be at least 18 inches apart. A sport fishing trotline must be set at least three feet below the water’s surface. Jugging is fishing with a single baited line attached to any floating object. A jug line may have no more than one single or multi-barbed hook. A set line is a line with one single or multi-barbed hook. It may be attached to a tree limb, tree trunk, bank pole or other stationary object on the bank of a stream or impoundment.

One person may use no more than two sport fishing trotlines or 50 jug lines or 25 set lines at any one time. Each boat may not use more than 50 jug lines, but each occupant may use two sportfishing trotlines or 25 set lines. Each sport fishing trotline, jug line or set line must be: 1) permanently labeled with the customer identification number provided on fishing licenses; 2) baited, checked and all fish removed at least once every 24 hours; 3) removed from water, bank or tree when fishing ceases.

**Prohibited Areas:** Sport fishing trotlines, jug lines or set lines may not be used within 200 yards below any dam.

**Q:** What is legal equipment for sport fish?

**A:** Anglers may legally take sport fish by hook and line in hand, rod in hand, jugging, setline or sport fishing trotline.
Sport fishing trotlines, jug lines or set lines are not allowed in Department owned/managed lakes having less than 500 surface acres, except those located on Ballard and Boatwright WMAs. No sport fishing trotlines are allowed within 700 yards below Kentucky Dam, the area between Barkley Dam and U.S. 62 bridge, or below the following Ohio River dams from the face of the dam to the end of the outer lock wall: Smithland, Newburgh, Cannelton, Markland, Meldahl and Greenup; McAlpine downstream to the K&I railroad bridge; J.T. Meyers (Uniontown) to the end of the outer lock wall and that portion of the split channel around the southern part of Wabash Island from the fixed weir dam to the first dike.

GIGGING and SNAGGING FISH  
(301 KAR 1:410, 1:082; KRS 150.010)

Gigging means spearing or impaling fish on any pronged or barbed instrument attached to the end of any rigid object. Snagging means taking fish or other aquatic animals by a rapid drawing motion (rather than enticement by bait) using a hand-held rod and attached line with one single treble hook. Except, in Green River, Rolling Fork River and their tributaries, up to five single or five treble hooks may be used for snagging. A rod legal for snagging must be equipped with line, guides and a reel.

The statewide season for gigging and/or snagging rough fish is from February 1 through May 10. It is illegal to possess a gig on a stream or lake or in a boat from November 1 through January 31. A person may gig or snag fish from the bank of a stream during the day or night. Gigging and snagging is not legal from a platform or boat, except that gigging is legal from a boat on lakes 500 surface acres or larger and only during daylight hours.

There is a statewide limit of 2 paddlefish for either gigging or snagging (except for the Tennessee River below Kentucky Lake and the Cumberland River below Lake Barkley). All gigged or snagged paddlefish must be taken into possession and cannot be culled or released. Anglers must cease gigging or snagging once they attain the 2 paddlefish daily creel limit. It is illegal to sell paddlefish or their roe taken by sport-fish snagging methods. No daily limits on any other rough fish except trophy catfish. Anglers must also cease snagging once a trophy catfish is snagged. Regardless of condition, all sport fish taken by gigging and snagging must be immediately returned to the water (except snagging in the Tennessee River below Kentucky Dam. See special regulations on page 9).

Persons may gig rough fish through the ice any time the surface is frozen thick enough to stand upon. The gigger must gig while supported by the ice.

Gigging and snagging are prohibited in the following waters or areas:

- Cave Run Lake including all tributaries up to the first riffle (The location of the first riffle may change depending on water level).
- Cumberland River, below Wolf Creek Dam downstream to the Tennessee line including all of Hatchery Creek and all tributaries for ½ mile upstream of their confluence with the Cumberland River.
- Within 200 yards of a dam, except below Kentucky Dam.
- Cumberland River, below Barkley Dam downstream to the U.S. 62 bridge.
- Tennessee River, below Kentucky Dam from the new U.S. 62 bridge to I-24 bridge.
- Middle Fork of Kentucky River from Buckhorn Lake downstream to the Breathitt County line.
- Rough River, below Rough River Dam to KY 54 bridge
- In the Tennessee River below Kentucky Dam, gigging prohibited year-round.

For special regulations concerning gigging and snagging in the Cumberland River below Barkley Dam and in the Tennessee River below Kentucky Lake refer to Special Regulations on pages 6 and 9 of this guide.

TICKLING and NOODLING  
(301 KAR 1:410; KRS 150.010)

The tickling and noodling (hand grabbing) season for rough fish is June 1 through August 31, during daylight hours only. Tickling and noodling means taking fish directly by hand, or with the aid of a handled hook. These methods are permitted in all waters. The daily creel limit is 15 rough fish, no more than 5 of which can be catfish. Only one blue or channel catfish longer than 25 inches may be kept daily on Barren River Lake, Dewey Lake, Fishtrap Lake and Taylorsville Lake.

BOW FISHING (301 KAR 1:410)

Rough fish (except alligator gar and lake sturgeon) may be taken year-round by long bow, crossbow, compound bow, recurve bow or pneumatic air arrow launching device. Sport fish may not be taken with this gear. Arrows must have a barbed or retractive style point that has a line attached for retrieval. Catfish have a daily creel limit of 5 (in aggregate) and paddlefish have a daily creel limit of 2. There is no limit on other rough fish. Bow fisherman may fish within 200 yards of a dam, except by boat in boat restricted areas. Bow fishing is prohibited on the Cumberland River below Wolf Creek Dam downstream to the Tennessee line, including Hatchery Creek and all tributaries for ½ mile upstream of their confluence with the Cumberland River.

Persons using a bow and arrow for fishing must have the appropriate fishing license and may take rough fish from bank or boat. Bow anglers cannot sell paddlefish or their roe taken by bow and arrow. Paddlefish and catfish taken by bow and arrow must be taken into immediate possession and cannot be culled. Fish taken by bow must not be discarded on the bank. Bank disposal is littering and subject to a fine.

SPEAR FISHING (301 KAR 1:410)

Underwater spearing of rough fish with hand-held or mechanically propelled spear is permitted year-round, but only in lakes having 1,000 surface acres or more. All participants in this sport must be submerged while spear fishing. Only rough fish may be taken and the appropriate fishing license is required. The daily limit is 15 fish of which only 5 may be catfish.

</table>

*Peabody, LBL and Otter Creek permits, elk drawing application, elk quota hunt permit, out-of-zone elk permit, bear permit, federal duck stamp and trapping license not included. An additional deer permit is not included with a Sportsman’s License. Kentucky’s license year begins March 1 and continues through the last day of February. New licenses are required annually, except for the 3-year fishing license. A 1-day or 7-day hunting license is valid only for the period shown on license. Resident and nonresident youths under the age of 12 are not required to purchase licenses or permits (except the elk drawing application).
HOW TO BUY LICENSES AND PERMITS

GETTING A LICENSE ONLINE
All Kentucky hunting and fishing licenses and permits, except a Joint Married Couple Fishing License, can be purchased through the secured Kentucky Fish and Wildlife website. Replacement licenses can be printed free at fw.ky.gov.

GETTING A LICENSE IN PERSON
Licenses and permits can be purchased throughout the Commonwealth. Most department stores, county court clerk offices and outdoor sporting goods stores sell licenses. License vendor locations are listed at fw.ky.gov.

GETTING A LICENSE BY PHONE
Licenses and permits can be purchased by phone 24 hours a day. It is the caller’s responsibility to know what type of license or permit is needed before calling. Operators should NOT be relied upon to explain licensing requirements. If you are unsure what license or permit you need, refer to previous portions of this guide, or contact Kentucky Fish and Wildlife at 1-800-858-1549.

All Kentucky hunting and fishing licenses and permits, except a disabled license, elk lottery application and all youth licenses and permits, can be purchased over the phone for a small fee.

By Internet:
Visit fw.ky.gov
Persons purchasing online:
1. Must use Visa, Mastercard or Discover;
2. Must provide their name, address, date of birth and Social Security number;
3. Must carry proof of their license/permit in addition to a picture ID while fishing; and
4. Will not receive a paper license/permit in the mail.

By phone:
Call toll-free 1-877-598-2401
Persons purchasing by phone:
1. Must use Visa, Mastercard, Discover or e-check;
2. Will be charged a small fee;
3. Must provide their name, address, date of birth and Social Security number;
4. Will be issued a paper license/permit by mail (except short-term licenses);
5. Will be issued an authorization number which serves as a license/permit until paper license/permit is issued; and
6. Must have the authorization number in addition to a picture ID while fishing, if they have not yet received their paper license/permit in the mail.

LICENSE REQUIREMENTS AND EXEMPTIONS

License expiration
Annual license/permit authorization numbers are valid from the date of purchase through the last day in February. New licenses are required annually March 1. A temporary fishing license is valid for the period shown on the license. KRS 150.175

WHO NEEDS A LICENSE?
(KRS 150.010, 150.170)
All persons must fill out and carry the proper license and permit to fish any Kentucky waters except the following (for permit requirements see “Trout Permit” on this page):
- The resident owner of farmlands, their spouse and dependent children may fish on their land without a license. Tenants, their spouses and dependent children may fish without a license on farmlands where they live and work.
- Resident servicemen on furlough for more than three days may fish statewide without a license, but must carry proper identification and papers showing furlough status.
- Residents and nonresidents ages 15 and younger.
- Persons fishing on the first Saturday and Sunday in June (June 6–7, 2020) during Free Fishing Days are not required to have a license or permit.
- Persons fishing within the boundaries of Mammoth Cave National Park.
- A resident is anyone who has established permanent and legal residence in Kentucky and resided here at least 30 days immediately prior to applying for a license. Full-time students enrolled in an educational institution for at least a six-month term and service personnel on permanent assignment in Kentucky are also classified as residents. All others are considered non-residents for licensing purposes.

TROUT PERMIT (301 KAR 1:201)
Unless license exempt, anglers who intend to keep trout must have a trout permit ($10). A trout permit is included with the resident senior/disabled combination license and resident sportsman’s license. All licensed anglers fishing the portion of the Cumberland River from Wolf Creek Dam to the Tennessee state line, its tributaries up to the first riffle and all of Hatchery Creek are required to possess a trout permit. (See the Trout section in this guide for details and for a complete list of waters where trout are present.)

RESIDENT SPORTSMAN’S LICENSE (SAVE $67!)
Available to Kentucky residents only, the Sportsman’s License includes a combination hunting and fishing license, spring turkey permit, fall turkey permit, statewide deer permit, state waterfowl permit (which also covers dove and other migratory bird hunting) and trout permit. Peabody and LBL permits, trapping license, an elk lottery application, elk quota hunt permit (if drawn), out-of-zone elk permit, bear permit and bonus deer permits must be purchased separately. A federal duck stamp (available at post offices) is required for waterfowl hunting.

PAY LAKES (KRS 150.660)
A person fishing in a pay lake licensed by the Kentucky Department of Fish and Wildlife Resources needs either a Kentucky fishing license or a free
FISHING REGULATIONS

FREE FISHING DAYS
(301 KAR 1:210)
Every year Kentucky offers free fishing days the first weekend in June (June 6-7, 2020). On free fishing days no license (including the Kentucky trout permit) is required of residents or non-residents to fish any Kentucky waters.

LOST LICENSES and PERMITS
Persons who need a replacement license or permit have three options:
1. Print a replacement online at fw.ky.gov. Click on “Licenses,” then on “Reprint Your License.”
2. Purchase the same type of license or permit from any license vendor, ask them for a license refund form (or print one at fw.ky.gov), fill it out and send it to: KDFWR Licensing, #1 Sportsman’s Lane, Frankfort, KY 40601. You will receive a refund minus a $5 handling fee.
3. Send $5, your name, address, date of birth and Social Security number, and which license(s) or permits you lost to: KDFWR Licensing, #1 Sportsman’s Lane, Frankfort, KY 40601. The department will replace the license/permit once verification of original purchase occurs. Replacement may take up to 3 weeks.

All other fishing regulations remain in effect. Free fishing days are offered to promote fishing and National Fishing Week.

RESIDENT SENIOR OR DISABLED SPORTSMAN’S LICENSES

The following are eligible to purchase the Senior or Disabled Combination Hunting and Fishing License (which includes the same license and permits as the Resident Sportsman’s License, plus additional deer permits):
• Kentucky residents ages 65 or older. Seniors need only show proof of age and residency to purchase this license.
• Kentucky residents certified totally and permanently disabled by the federal Social Security Administration, a state workers’ compensation board, the Kentucky Teachers’ Retirement System or the U.S. Railroad Retirement Board.
• Kentucky resident employees of the U.S. Office of Personnel Management declared totally and permanently disabled by a recognized authority.
• Kentucky resident veterans at least 50% disabled as the result of a service-connected disability.
• Kentucky residents certified totally and permanently disabled by the federal Social Security Administration, a state workers’ compensation board, the Kentucky Teachers’ Retirement System or the U.S. Railroad Retirement Board.
• Kentucky resident employees of the U.S. Office of Personnel Management declared totally and permanently disabled by a recognized authority.
• Kentucky resident veterans at least 50% disabled as the result of a service-connected disability.

Persons with disabilities listed above must first obtain a disability authorization card from Kentucky Fish and Wildlife.

To obtain a disability license authorization card:
If your disability is through the:
• Federal Social Security Administration: To request a Benefit Verification Letter (BEVE), you may:
  (1) go to www.socialsecurity.gov/myaccount, (2) call 1-800-772-1213 or (3) contact your local office. To request the BEVE on the Social Security website, choose “Create an Account” or “Sign In.” Next, click the “Get a Benefit Verification Letter” link. Next select “Customize your letter.” The BEVE should include your name, address, date of birth, benefit amount and indicate that you are disabled. Next, choose “Apply to letter” and then “Print.” If you contact Social Security, please request all of this information to be included on the BEVE. The BEVE will only include the last four digits of your claim number(s). We ask that you write your entire Social Security Number (SSN) on the BEVE before sending it to Kentucky Fish and Wildlife. The full SSN is required in order to process the Hunting/Fishing License application. The BEVE that you send to us should not be over six months old from its date of issue.
• Veteran’s Affairs: Contact your local VA office and request a letter that verifies you are at least 50 percent disabled as a result of a service-connected disability. The letter should also have your current address and your Social Security number.
• If your disability is through other state or federal agencies call 1-800-858-1549.
  Once the proper documentation is processed, applicants will receive their authorization card by mail.

The authorization card is not a license. It must be presented to the license seller, or the authorization number entered online, at the time of purchase. License vendors cannot sell a disability license using an expired authorization card. The Senior or Disabled Combination Hunting and Fishing License is valid through the end of February each year. If you lose your card or license, you can print a copy of both online using the “My Profile” feature at fw.ky.gov.

To send disability paperwork to Kentucky Fish and Wildlife:
• By mail: KDFWR Disability License, #1 Sportsman’s Lane, Frankfort, KY 40601
• By fax: (502) 564-9845

Q: For how long is a disability authorization card valid?
A: A disability authorization card is good for three years (check the expiration date). Every three years you must provide updated paperwork (following the instructions on this page) and get a new card. Those who already have a disability authorization card through Veterans Affairs, U.S. Railroad Retirement Board or U.S. Office of Personnel Management may call 1-800-310-1873 to get a new card.

Carry proof

Holders of Disabled Combination Licenses must carry both the license and authorization card while fishing. Once a person who qualifies for this license reaches age 65, he or she is considered a senior for licensing purposes, and no longer needs to follow the process of obtaining a disability license authorization card.
BORDERING WATERS

All resident Kentucky anglers who fish reciprocal waters must have a valid Kentucky fishing license.

OHIO RIVER FISHING
(KRS 150.170)

An angler with a Kentucky fishing license may fish the entire main stem of the Ohio River from a boat, or a bordering state’s bank without buying the other state’s license (bordering states include Illinois, Indiana and Ohio).

This does not apply if fishing a bordering state’s embayments or tributaries, which begin at a straight line between opposite points where the tributary or embayment meets the main stem of the river.

Anglers fishing from a bordering state’s bank must follow the size and creel limits of the state where the angler is located. For example, a Kentucky licensed angler can stand on the Indiana bank and fish the main stem of the Ohio River without an Indiana fishing license, but must abide by Indiana’s size and creel limits. However, anglers fishing from a boat must follow the size and creel limits of the state in which the angler is licensed.

Reminder: snagging is not permitted for any fish species on the Indiana side or in any Indiana waters of the Ohio River. In Kentucky, a person may not snag within 200 yards below any dam on the Ohio River.

MISSISSIPPI RIVER
(KRS 150.170)

Anglers licensed in Kentucky may fish Missouri portions of the Mississippi River without buying a Missouri fishing license. Each state recognizes the sport fishing licenses and permits of the other state on the Mississippi River. The river is defined as the main channel and immediately side or secondary channels and chutes. It does not include oxbow or floodplain lakes or any tributary streams. A tributary is delineated by the straight line between opposite points where the tributary connects with the main body of the Mississippi River. Furthermore, the river does not include backwaters that extend onto the floodplain or tributaries when the river exceeds 33 feet at the gauging station at Cairo, Illinois.

Sport fishing license or permit holders may fish from, or attach any device or equipment to land along the river under the jurisdiction of the other state. Landowner permission is required to fish from the bank.

Sport fishing license holders shall abide by the regulations in the state in whose waters they are fishing and when fishing in waters they are not licensed to fish, shall comply with the most restrictive regulation.

DALE HOLLOW LAKE

Anglers may use either a Tennessee or a Kentucky sport fishing license while fishing in the Wolf River arm of Dale Hollow Lake. This includes the Ilwll Creek embayment beginning at a line crossing the Wolf River at its mouth where it joins the Obey River and the main part of the lake.

Anglers must obey the regulations of the state in which they are licensed. Kentucky residents must have a Kentucky license.

KENTUCKY LAKE

On Kentucky Lake, anglers with either a valid Kentucky or Tennessee sport fishing license may fish from Eggner’s Ferry Bridge (U.S. 68 and KY 80) in Kentucky south to the Governor Ned McWhorter Bridge (U.S. 79 and TN 76) in Tennessee. This includes all embayments and tributaries, except the Blood River embayment in Kentucky. Anglers must abide by the fishing and boating regulations of the state in which they are fishing.

BIG SANDY and TUG FORK RIVERS

Anglers with a valid Kentucky fishing license may fish the entire main stem of the Big Sandy and Tug Fork rivers from the confluence of the Ohio and Big Sandy Rivers upstream to the Virginia state line. Kentucky anglers can fish from a boat or on West Virginia’s bank without buying a West Virginia fishing license.

This does not apply to fishing West Virginia’s tributaries or embayments, which begin at a straight line between opposite points where the tributary or embayment meets the main stem of the river.

Kentucky anglers fishing from West Virginia’s bank must follow their size and creel limits. However, Kentucky anglers fishing the main stem from a boat must follow Kentucky’s size and creel limits.

BIG SOUTH FORK OF THE CUMBERLAND RIVER

Anglers may use either a Tennessee or a Kentucky sport fishing license while fishing that portion of the Big South Fork from the Leatherwood Ford bridge (KY 297) in Tennessee to the KY 92 bridge at Yamacraw, Kentucky.

Anglers must obey the regulations of the state in which they are licensed. Kentucky residents must have a Kentucky license.

OTHER BORDERING WATERS

On all other bordering waters, boundaries are set by state lines. Obey the laws of the state in which you are fishing.

The Angler’s Legacy program aims to mobilize the 7.5 million avid anglers in the United States to “take someone fishing.” The program intends to pass the angling legacy down to the next generation. Take the pledge by logging on to www.anglerslegacy.org to take a child, friend, co-worker or relative on a fishing trip.
GENERAL INFORMATION

FISHING TOURNAMENTS

As a voluntary program, fishing event organizers are strongly urged to use the Tournament web site at fw.ky.gov/tournamentschedule.aspx to register and report on their events. Tournament planners can avoid space conflicts with other previously registered events by adjusting the date, time, specific launch areas or weigh-in site for their activities.

Other recreational anglers and boaters can check the web site to see when and where fishing events are scheduled. This will assist them in planning their activities and also help avoid potential space conflicts. Additional permits may be required by the U.S. Army Corps of Engineers, the U.S. Forest Service or Kentucky State Parks.

Check the Kentucky Fish and Wildlife website at fw.ky.gov. If the launch site for your tournament involves using a marina ramp, please contact the marina operator before scheduling your tournament.

There are over 1,000 fishing tournaments held annually in Kentucky waters. These can be a valuable source of information to our fishery biologists. Following each scheduled event, tournament organizers are asked to report their catch data directly on the tournament web site or on forms which can be sent via postal mail. Voluntary cooperation from tournament organizers will be used in making fishery management decisions. At the end of the tournament season, a summary of tournament results will be sent to all providers. If not provided with one, contact your local fisheries district office. They will provide a packet.

KEEPING YOUR BASS ALIVE

Kentucky Fish and Wildlife recommends tournament anglers and directors follow some simple procedures to keep bass alive during summer tournaments that run from June through August. Summer tournament fishing places great stress on bass due to high water temperatures. Please refer to the Kentucky Fish and Wildlife website at fw.ky.gov for a list of these procedures.

HABITAT

The Kentucky Department of Fish and Wildlife regularly creates and maintains fish attractors and habitat structures in lakes across Kentucky. These structures vary in material and benefit sport fish populations while providing anglers productive fishing areas. GPS locations of many of these structures are found at fw.ky.gov.

HARMFUL ALGAL BLOOMS

Blue-green algae are a type of bacteria found in lakes in Kentucky and throughout the United States. They occur naturally, but if their numbers get too high they can pose health risks to humans and animals. Anglers, hunters, boaters and all others who might use these water resources should be aware of the potential risks associated with these blooms. Both the Kentucky Division of Water and the U.S. Army Corps of Engineers have initiated testing of lakes in Kentucky to document these blooms and provide updated information to the public. See fw.ky.gov for more information.

Q: Can you sell fish caught while possessing only a valid Kentucky sport fishing license?
A: No. It is illegal to sell any fish (except Asian carp) caught without the proper commercial fishing license and gear.

HAVE YOU SEEN ME?

Kentucky’s largest salamander: Eastern Hellbender

Kentucky Fish and Wildlife is very interested in all locality records for the eastern hellbender. If you see this giant salamander, please e-mail John MacGregor (john.macgregor@ky.gov) or Zach Couch (zach.couch@ky.gov) with locality information and a photograph, if possible.
FISH CONSUMPTION ADVISORIES

The Kentucky Departments for Environmental Protection, Health Services and Fish and Wildlife Resources jointly issue a fish consumption advisory to the public when fish are found contaminated. Trace contaminants such as polychlorinated biphenyl (PCB), mercury and chlordane are found in some fish in Kentucky. An advisory cautions people about potential health problems that may result from eating fish caught from a particular area. An advisory does not ban eating fish; it is a guide to reduce your risk. This guide provides information on how often fish may be safely eaten. Most fish are healthy to eat and are an excellent source of low-fat protein.

CONSUMPTION GUIDELINES

Consumption rates for specific fish have been developed based on a meal of ½ pound of fish (before cooking) eaten by a 150-pound individual. Following these guidelines and spacing your meals of those fish species will limit your health risks by reducing your total exposure. See table on the next page.

STATEWIDE

All waters are under advisory for mercury. Women of childbearing age and children 6 years of age or younger should eat no more than six meals per year of predatory fish. They should eat no more than one meal per month of predatory fish and no more than one meal per week of panfish and bottom feeder fish. There is no advisory for the general population for fish in the “other fish” category.

Fish consumption advisories now delineate between predatory fish, bottom feeder fish, panfish and other fish species including Asian carp, trout, minnows, etc. Predatory fish include black bass (smallmouth, largemouth and spotted), white bass, striped bass, hybrid striped bass, sauger, saugeye, walleye, muskellunge, flathead and blue catfish, yellow bass, chain pickerel and all gars.

Panfish include bluegill, crappie, rock bass as well as green, longear and redbreast sunfish. Bottom feeder fish include the bullheads, buffalo species, channel catfish, common carp, redhorse species, shovelnose sturgeon, drum, creek chub as well as the white, spotted, northern hog and carpsuckers.

Organic mercury occurs naturally in the environment and does not affect swimmers, skiers or boaters. Fish accumulate low levels of mercury by eating plankton and other small aquatic creatures.

For the most up-to-date consumption advisory information, please visit fw.ky.gov.

NEED A PLACE TO FISH?

Find new fishing information on Kentucky waterbodies by visiting fw.ky.gov. Click on the “Find A Place To Fish” tab on the left side of the home page. Anglers may search lakes, rivers and creeks for boat ramps and access points, what species are available and maps of how to get there plus other useful information.

Also under the “Find a Place to Fish” tab is the 2020 Fishing Forecast. This report details the anticipated fishing success for each species in major waterbodies based on population samples conducted by KDFWR fisheries biologists.

Although the VPA program is now in a reduced capacity, many sites remain open to public use. Check the Kentucky Fish and Wildlife website at fw.ky.gov.

REDUCE YOUR RISK

Risks from eating contaminated fish can be reduced by the following:

- fillet the fish, remove the skin and trim all fat
- do not eat fish eggs
- broil, grill or bake the fillets instead of frying or microwaving
- do not eat or reuse juices or fats that cook out of the fish.

SENSITIVE POPULATION

Women of childbearing age, children 6 years of age or younger, pregnant and nursing women and women who plan to become pregnant should follow the advisories in the “Sensitive Population” category.

PARASITES and GRUBS IN FISH

Kentucky anglers will occasionally clean a fish and find a white or yellowish color worm in the fish’s flesh that is about the size of a grain of rice. Or, when stream fishing, an angler will encounter a smallmouth bass or sunfish with small black specks on its belly or across its body.

This is a parasitic fluke that requires different host animals to complete its life cycle: a fish eating bird, a snail and a fish. The grub matures and produces eggs inside a host fish-eating bird such as a Great Blue Heron. The eggs enter the water from the bird’s droppings or from its mouth. The eggs hatch and tiny larvae of the parasite burrow into a snail. After a time in the snail, the parasite changes form and swims to its next host, a fish. Inside the fish, the parasite changes to a grub form and waits for the fish to be eaten. Then, the cycle repeats.

The angler’s first instinct is to discard any fish with either the grubs in the flesh or black specks on the body. Grub-infested fish are safe to eat. Grubs do not infect people. Remove any grubs found and prepare the fish as you normally would.

**ANGLER’S FISH IDENTIFICATION GUIDE**

**BROWN TROUT**
1. Dark spots and orange or red spots with blue halos, 2. Few spots on tail fin

**RAINBOW TROUT**
1. Pink to red stripe on side, 2. Back and sides heavily speckled, 3. Spots on tail fin

**WALLEYE**
1. Dark streaks or blotches on spiny dorsal fin, but not distinct spots, 2. Dark blotch at rear of spiny dorsal fin, 3. White spot on lower lobe of tail fin

**SAUGER**
1. Rows of dark spots on spiny dorsal fin, 2. No dark blotch at rear of spiny dorsal fin, 3. Dark saddle-like blotches which extend onto the sides of the body

**HYBRID STRIPED BASS**
1. Tooth patch on tongue consists of two rows of teeth, often partially joined, 2. Back moderately arched, 3. Most stripes are broken, many more than once

**STRIPED BASS**
1. Tooth patch on tongue consists of two distinctly split, parallel rows of teeth, 2. Back slightly arched, more streamlined, 3. Stripes very distinct and most extend fully onto tail

**WHITE BASS**

**YELLOW BASS**
1. No tooth patch on tongue, 2. Second and third anal spines nearly same length, 3. Stripes distinct and broken above anal fin

**BROOK TROUT**
1. Worm-like markings (vermiculations) on upper body, 2. Pale spots on dark background
**BLUEGILL**
1. Gill flap black, 2. Vertical bars on side, 3. Dark blotch at rear of soft dorsal fin

**REDEAR SUNFISH**
1. Gill flap black with orange or red margin, 2. No dark blotch at rear of soft dorsal fin

**WHITE CRAPPIE**
1. Dorsal fin has five or six spines, 2. Vertical bars on side

**BLACK CRAPPIE**
1. Dorsal fin has seven or eight spines, 2. Irregular black blotches on side

**ROCK BASS**
1. Eye rimmed in red, 2. Most scales have a dark spot, 3. Anal fin has five or six spines

**SMALLMOUTH BASS**
1. Upper jaw does not extend beyond back of eye, 2. Shallow notch between dorsal fins, 3. Bronze colored with vertical bars on side

**LARGEMOUTH BASS**
1. Upper jaw extends beyond back of eye, 2. Dorsal fins separated by deep notch, 3. Tongue usually without tooth patch

**SPOTTED BASS**
**GENERAL INFORMATION**

**FLATHEAD CATFISH**
1. Lower jaw projects far beyond upper jaw,
2. Tail fin not deeply forked,
3. Head is compressed on flathead catfish

**CHANNEL CATFISH**
1. Outer margin of anal fin rounded, with 24 to 29 rays,
2. Dark spots usually on body,
3. Tail fin deeply forked

**BLUE CATFISH**
1. Outer margin of anal fin straight, with 30 to 35 rays,
2. Body without dark spots,
3. Tail fin deeply forked

**MUSKELLUNGE**
1. Duck-like bill with sharp teeth,
2. No scales on lower half of cheek and gill flap

**KENTUCKY THREATENED AND ENDANGERED FISHES**

These five species of fish are protected under the Federal Endangered Species Act. It is illegal to take these fish species and utilize them for any purpose including as live bait for fishing (see page 10).

**BLACKSIDE DACE**
Found only in small (wadeable) streams in the Upper Cumberland River Basin including Letcher, Harlan, Bell, Whitley, Knox, McCreary, Pulaski and Laurel counties.

**CUMBERLAND DARTER**
Found only in small (wadeable) streams in the Upper Cumberland River drainage including Whitley and McCreary counties.

**PALEZONE SHINER**
Found only in the Little South Fork of the Cumberland River in McCreary and Wayne counties.

**RELICT DARTER**
Found only in the Bayou du Chien River in Hickman and Graves counties.

**TUXEDO DARTER**
Found only in the Big South Fork of the Cumberland River in McCreary County.

**LAKE STURGEON (top) and ALLIGATOR GAR**
Lake sturgeon may not be harvested statewide. Alligator gar are part of a new restoration effort in western Kentucky. If you see or catch these fish, please report the catch or sighting to Matt Thomas at (502) 564-7109. Release caught alligator gar.
AQUATIC NUISANCE SPECIES

SPORT ANGLERS UNINTENTIONALLY AND INTENTIONALLY STOCK FISH IN KENTUCKY'S PUBLIC WATERS. THESE SPECIES MAINLY INCLUDE GIZZARD SHAD AND ALEVIWES THAT ARE PRESENT IN SEVERAL WATER BODIES. GIZZARD SHAD HAVE BEEN ILLEGALLY RELEASED IN SEVERAL SMALL PUBLIC LAKES WHERE THEY PREVIOUSLY WERE NOT PRESENT. THEY INTERFERE WITH THE LAKE'S ABILITY TO SUPPORT A QUALITY BLUEGILL POPULATION. ALEVIWES ARE A NON-NATIVE FISH ILLLEGALLY STOCKED INTO SEVERAL KENTUCKY LAKES. THE TOTAL IMPACT OF THESE FISH IS NOT KNOWN, BUT THEY ARE KNOWN TO EAT YOUNG FISH, INCLUDING SPORT FISHES.

ADDITIONALLY, THERE ARE MANY NON-NATIVE AQUATIC SPECIES THAT INVAS ED THE COUNTRY, PARTICULARLY IN GREAT LAKE STATES. THESE INCLUDE BOTH PLANTS AND ANIMALS SUCH AS EURASIAN WATERMILFOIL, ASIAN CARP, HYDRIlla, SPRING WATER FLEA, AND ZEBRA MUSSELS.

ASIAN CARP

THREE SPECIES OF ASIAN CARPS (BIG-HEAD, SILVER AND GRASS) ARE REPRODUCING AT ALARMING RATES AND THREATEN KENTUCKY'S AQUATIC ECOLOGY. THESE FISH ARE OUTCOMPETING NATIVE FISHES FOR FORAGE AND BECOMING OVERPOPULATED. SILVER CARP, BECAUSE OF THEIR PROPENSITY TO JUMP, CAN BE HARMFUL TO RECREATIONAL BOATERS. THESE CARP SPECIES CAN PRODUCE OVER 1 MILLION EGGS PER LARGE ADULT EACH YEAR. IN AREAS WHERE CONDITIONS ARE SUITABLE FOR REPRODUCTION, THEIR NUMBERS CANNOT BE CONTROLLED WITHOUT SUPPORT FROM COMMERCIAL FISHING.

VERY YOUNG ASIAN CARP CAN BE EASILY MISSTAKEN AS SHAD OR SKIPJACK HERRING. ALL BAIT COLLECTORS USING CAST OR DIP NETS SHOULD NEVER DISPOSE OF ANY LIVE BAIT INTO OTHER WATER BODIES DUE TO THE POTENTIAL THREAT OF SPREADING THESE AQUATIC NUISIBLE SPECIES.

ZEBRA MUSSELS

KENTUCKY HAS ZEBRA MUSSELS PRESENT IN OUR WATERS AND ARE AT NUISIBLE LEVELS IN THE OHIO RIVER. THEY ATTACH THEMSELVES TO ANY SOLID SUBMERGED SURFACE IN A CLUSTER, REPRODUCE RAPIDLY, AND POSE A SERIOUS THREAT TO NATIVE FRESHWATER MUSSEL POPULATIONS. THESE MUSSELS HAVE ELONGATED POINTED SHELLS LESS THAN TWO INCHES LONG WITH A ZEBRA-LIKE PATTERNS OF STRIPES. ZEBRA MUSSELS CAN LIVE 8 TO 10 DAYS OUT OF WATER AND CAN BE TRANSPORTED TO ANOTHER WATER BODY WHILE ATTACHED TO A BOAT.

HYDRIlla

HYDRIlla IS AN EXOTIC PLANT INVASING KENTUCKY THROUGH TRANSFER OF PLANT FRAGMENTS BY BOATS AND PERSONAL WATERCRAFT. ALL IT TAKES IS A SMALL FRAGMENT OF THE PLANT TO START A NEW COLONY. THIS PLANT FORMS EXTREMELY DENSE MATS THAT GROW TO THE SURFACE OF THE WATERBODY MAKING BOATING AND SWIMMING DIFFICULT. IT LI TERALLY FILLS SHALLOW AREAS FROM TOP TO BOTTOM WITH VEGETATION.

HYDRIlla ALSO CHOKES OUT NATIVE PLANTS AND DISPLACES FISH. IT IS EXTREMELY DIFFICULT TO ERADICATE ONCE IT BECOMES ESTABLISHED.

IN ORDER TO LIMIT THE SPREAD OF THIS NUISIBLE PLANT, PLEASE CHECK ALL TRAILER PARTS, BOAT MOTOR AND OTHER EQUIPMENT FOR MUD OR PIECES OF PLANT AND REMOVE BEFORE LEAVING THE LAKE.

WE RECYCLE YOUR FISHING LINE

KENTUCKY Fish and Wildlife is beginning an effort to educate the public about the harmful effects of discarded fishing line on the environment. Recycle used mono filament fishing line by placing it in collection bins on lakes across the state.

HELP KEEP OUT NON-NATIVE SPECIES

- CLEAN your boat and trailer before launching into or leaving any waterbody.
- REMOVE all plants and animals.
- DRAIN all water from bilges and livewells.
- DISPOSE of unwanted live bait on shore – DO NOT STOCK THE LAKE!
- RINSE your boat, trailer and equipment with high pressure hot water.
- DRY everything for at least five days.

It's the law

No live fish, live minnow, or live bait organisms not native or established in Kentucky shall be bought, sold, possessed, imported, or in any way used or released into Kentucky waters.

It’s the law
Cutthroat trout are now being stocked in the Cumberland River below Wolf Creek Dam. Look for the characteristic red-orange throat slash. Please refer to page 19 for a comparison of the other three trout species in the river.

*See “Catch and Release Brook Trout Streams” on page 26 and special regulations for Cumberland River on page 6. All trout stockings in streams, lakes or tailwaters are subject to weather and road conditions. Check the Kentucky Fish and Wildlife website at fw.ky.gov for the list of monthly trout stockings.

**EXCEPTIONS**

On the Dix River (Herrington Lake tailwaters), fishing is permitted with artificial baits only. Live or organic bait may not be possessed while fishing this two-mile section of Dix River. The only public access to Dix River below Herrington Dam is via the Kentucky River.

The Cumberland River below Lake Cumberland from the Wolf Creek Dam downstream to the Tennessee state line. A 20-inch minimum size limit and a one fish daily creel limit applies to brown trout and cutthroat trout. A 15- to 20-inch protective slot limit on rainbow trout is in effect for the same section of the Cumberland River. All rainbow trout caught between 15 and 20 inches must be immediately released. Only one rainbow trout of the five fish daily creel limit may be longer than 20 inches. Brook trout have a 1 fish daily creel limit with 15-inch minimum size limit. All anglers on this section of the Cumberland River, including all tributary streams up to the first riffle, must possess a valid Kentucky trout permit (regardless of species sought). Anglers may not chum or cull trout.

On Hatchery Creek in Russell County, the upper section as designated by signs has a 5 trout aggregate daily creel limit with no size limit. The newly constructed lower section is open for catch and release only for all trout species and only artificial baits may be used.

The lower boundary of the lower section of Hatchery Creek is delineated as a straight line between opposite points where Hatchery Creek meets the main stem of the Cumberland River.

Anglers fishing Hatchery Creek may not use chum, cull trout and must possess a valid Kentucky trout permit.

On Paint Creek in Johnson County (Paintsville Lake tailwater), there is a 16-inch minimum size limit and one fish daily creel limit on trout from the KY 40 bridge downstream to the first U.S. 460 bridge crossing. Only artificial baits may be used.

On Chimney Top Creek, including Right Fork Chimney Top Creek (Wolfe County), only artificial baits may be used.

On Trammel Creek in Allen County, there is a five fish daily creel limit on rainbow trout.

**TROUT STOCKING STREAMS**

The streams listed on the following pages are stocked with rainbow trout by the Kentucky Department of Fish and Wildlife Resources (KDFWR) and the U.S. Fish and Wildlife Service during the months indicated. Brown trout are stocked once each year for a put-grow-take fishery. All trout are produced at Wolf Creek National Fish Hatchery. Visit fw.ky.gov for a list of monthly trout stockings.

*Stocking dates for Cumberland River (Lake Cumberland tailwater) will not be announced. Also, brook trout are stocked in March.

**THREAT TO TROUT FISHERIES**

The invasive algae known as Didymo (Didymosphenia geminata) has been documented in the Cumberland River (Lake Cumberland tailwater).

Didymo, native to northern Europe and Canada, is a white, gray, light brown or beige mass on the stream bottom that resembles shag carpet. Didymo can choke the stream bottom with mats that cover up native plants and crowd out native insects that trout need for food.

To prevent the spread of Didymo into other Kentucky tailwaters and streams, anglers who fish the Cumberland River and out-of-state waterways should:
- Inspect all wading gear and boat hulls, livewells, lower units and trailers for any vegetation after leaving the water and remove.
- If algae or vegetation is discovered later, 1. disinfect with a 2 percent solution of household bleach or 2. a 5 percent solution of salt or 3. you may also soak in undiluted vinegar. 4. Allow to air dry for at least 2 days.

When planning a boating trip, leave a note, or float plan, with someone to let them know where you are. Include your departure and expected return times, the waters where you will be boating, a description and/or license number of the vessel and where you can be reached in case of emergency.

Many of the streams listed in this guide are located on, or adjacent to, privately owned lands. Anyone entering upon or crossing private property must have the permission of the land owner.
LAKES

The lakes below are stocked with rainbow trout in the months indicated. January-March stockings are scheduled based on weather and road conditions.

* Total trout includes brown trout

FORT CAMPBELL AND FORT KNOX

Little West Fork, Fletchers Fork and Kinser Pool on Fort Campbell (Tennessee portion) and Otter Creek on Fort Knox (Bullitt, Meade and Hardin counties) military reservations are stocked with rainbow or brown trout. Special fishing regulations apply and a post fishing permit is required in addition to a valid Kentucky fishing license and trout permit. Contact Community Recreation Division, Hunting and Fishing Unit, Fort Campbell, KY 42223-5000; phone: (270)798-2175 or Hunt Control Office, Fort Knox, KY; phone: (502) 624-2712.

OTHER AREAS

CATCH AND RELEASE BROOK TROUT STREAMS

Four streams are catch and release only year-round and only artificial flies and lures with a single hook may be used on these streams:

- Chimney Top Creek – Wolfe County*
- Dog Fork – Wolfe County*
- Parched Corn Creek – Wolfe County
- Shillalah Creek – Bell County, outside the Cumberland Gap National Historic Park

* Chimney Top Creek and Dog Fork are stocked annually with brook trout as part of a restoration project.
Anglers who catch, by pole and line, any one fish meeting the length requirements below may qualify for the Trophy Fish/Master Angler Awards Program. Anglers who catch three different species of trophy status are eligible for the Master Angler Award. There is no time limit in which the three different species must be caught, but each catch must be documented and registered as a trophy fish with Kentucky Fish and Wildlife since the program began in 1987. Species counted toward a Master Angler Award may not be duplicated.

Anglers qualifying for a Kentucky Trophy Fish Award will receive a collectable Kentucky Trophy Fish lapel/hat pin. An angler may only receive one pin per year, but each Trophy Fish caught counts toward the Master Angler Award.

All applications for Trophy Fish/Master Angler Award Program must be received within 60 days of the catch to qualify for a lapel/hat pin.

Anglers must register at fw.ky.gov to receive their lapel/hat pin and Trophy Master Angler Awards. Associated photos must be received within 60 days of the catch to qualify for a lapel/hat pin.

Complete details are available by calling 1-800-858-1549 or online at fw.ky.gov.
STATE RECORD FISH PROGRAM

To qualify for the state record fish program, fish must be caught in Kentucky waters by a rod and reel or pole and line only. Fish taken on commercial gear, by trotlines, limb lines, jugging, gigging, snagging, by hand or bow fishing are not eligible.

Fish need to be weighed on a scale certified for legal trade and witnessed by three people who must sign the record application. The fish must be identified in person by KDFWR fishery biologist or the manager of Wolf Creek National Fish Hatchery and not filleted, gutted or cut up.

Applications for the state record fish program are available by calling 1-800-858-1549 or online at fw.ky.gov or from your District Fisheries Office:

**Bowfishing records** The United Bowhunters of Kentucky maintains a state record program for fish harvested by bow and arrow. Visit their website at [www.kystatebowfishingrecords.com](http://www.kystatebowfishingrecords.com) for details, guidelines and current state records.
INTRODUCTION
This publication provides basic information for most boaters and answers the most commonly asked questions. However, it is not all inclusive. For further information, please contact the Division of Law Enforcement, #1 Sportsman’s Lane, Frankfort, KY 40601 or call 1-800-858-1549.

For emergencies, officers may be contacted by dialing 1-800-252-5378, or local law enforcement agency or through the nearest Kentucky State Police post. One may use marine channel 16 to contact a local marina.

REGISTRATION
(301 KAR 6:001, 6:010)
All mechanically powered vessels used primarily in this state must have a Kentucky registration. Boats are registered at the county clerk’s office. Persons may register in the county of their residence or the county of principal use. Boat registrations expire April 30 each year.

Boats registered in other states may be used for up to 60 consecutive days in Kentucky without registering here.

All boats operated in Kentucky must have the registration certificate on board. Boats that are rented from a marina or boat livery must have a lease agreement on board.

DISPLAY OF NUMBER and DECAL
Once boats are assigned a registration number and decals, they must be displayed correctly. The number assigned, and no other, shall be displayed on the bow, or forward half, of each side of the vessel, read from left to right, and in a position to be distinctly visible. The letters and numbers must be of a plain block design, at least three (3) inches in height, and of a color that will provide maximum contrast to the background (light numbers on a dark hull or vice versa).

There must be a letter size space between letter and number groups:
Correct: KY 1234 AA
Incorrect: KY1234AA

Registration decals are to be placed within six inches behind (aft) and in line with the registration number. Upon renewal every year, old registration decals are to be removed and the current ones applied.

TRANSFER, DESTRUCTION OR ABANDONMENT
Whenever a vessel is transferred, the seller shall, within 15 days, give the county clerk notice of the transfer of his interest in the vessel.

Whenever a vessel is destroyed or abandoned, the owner shall, within 15 days, give notice to the county clerk to terminate the registration. The owner shall remove the numbers and decals from the vessel.
Lake, Mauzy Lake, Mill Creek Lake, Martin County Lake, Metcalfe County McNeely Lake, Marion County Lake, Tract lakes (except Benjy Kinman Lake), Lake, all Kentucky River WMA Boone (a.k.a. Fagan Branch Lake), Fishpond Smoky Valley Lake), Lebanon City Lake lakes, Carter Caves State Park Lake (a.k.a. Briggs Lake, Carpenter and Kingfisher Bert T. Combs Lake, motors prohibited:

Kentucky boaters on the Ohio River may also be subject to the laws of Ohio, Indiana, Illinois and the U.S. Coast Guard.

(301 KAR 1:012, 1:015)

Maximum horsepower limits and other boat motor and lake usage regulations apply on many small public fishing lakes. (For boat size limits see box on this page.)

**MOTOR SIZE RESTRICTIONS:**

**Operation of electric or internal combustion motors prohibited:** Lake Chumley, Dennie Gooch Lake and Kingdom Come Lake.

**Operation of internal combustion motors prohibited:** Bert T. Combs Lake, Briggs Lake, Carpenter and Kingfisher lakes, Carter Caves State Park Lake (a.k.a. Smoky Valley Lake), Lebanon City Lake (a.k.a. Fagan Branch Lake), Fishpond Lake, all Kentucky River WMA Boone Tract lakes (except Benjy Kinman Lake), Lincoln Homestead State Park Lake, McNeely Lake, Marion County Lake, Martin County Lake, Metcalfe County Lake, Mauzy Lake, Mill Creek Lake, Lake Reba, Spurlington Lake, Washburn Lake, Pikeville City Lake.

**Motors larger than 10 HP must operate at idle speed** at all times on Beaver Lake, Boltz Lake, Bullock Pen Lake, Corinth Lake, Cranks Creek (Herb Smith) Lake, Elmer Davis Lake, Kincaid Lake, Martins Fork Lake and Shanty Hollow Lake.

**Idle Speed Only:** Ballard WMA lakes, Benjy Kinman Lake, Boatwright WMA lakes, Beulah Lake, Carnico Lake, Greenbo Lake, Pan Bowl Lake, Wilgreen Lake and all Peabody WMA lakes including Goose, Island and South lakes.

**BOAT, MOTOR and LAKE USAGE**

- **Bordering waters**
  - Kentucky boaters on the Ohio River may also be subject to the laws of Ohio, Indiana, Illinois and the U.S. Coast Guard.

- **MOTOR SIZE RESTRICTIONS:**
  - Operation of electric or internal combustion motors prohibited: Lake Chumley, Dennie Gooch Lake and Kingdom Come Lake.
  - Operation of internal combustion motors prohibited: Bert T. Combs Lake, Briggs Lake, Carpenter and Kingfisher lakes, Carter Caves State Park Lake (a.k.a. Smoky Valley Lake), Lebanon City Lake (a.k.a. Fagan Branch Lake), Fishpond Lake, all Kentucky River WMA Boone Tract lakes (except Benjy Kinman Lake), Lincoln Homestead State Park Lake, McNeely Lake, Marion County Lake, Martin County Lake, Metcalfe County Lake, Mauzy Lake, Mill Creek Lake, Lake Reba, Spurlington Lake, Washburn Lake, Pikeville City Lake.
  - Motors larger than 10 HP must operate at idle speed at all times on Beaver Lake, Boltz Lake, Bullock Pen Lake, Corinth Lake, Cranks Creek (Herb Smith) Lake, Elmer Davis Lake, Kincaid Lake, Martins Fork Lake and Shanty Hollow Lake.
  - Idle Speed Only: Ballard WMA lakes, Benjy Kinman Lake, Boatwright WMA lakes, Beulah Lake, Carnico Lake, Greenbo Lake, Pan Bowl Lake, Wilgreen Lake and all Peabody WMA lakes including Goose, Island and South lakes.

**Note**

Legal-size boats exceeding the maximum horsepower restriction for a particular lake may operate their boat with an electric trolling motor only.

**WATER-SKIING**

While this section is titled water-skiing, it applies to persons being towed on any device such as knee boards, inner tubes, etc. Water-skiing is only allowed on any device such as knee boards, surfboards, etc. while intoxicated or under the influence of any other substance that impairs one’s operating ability.

Both the operator and skier should be alert to the areas of a lake or river marked as “no ski.” Persons shall not ski within 100 feet of a commercial boat dock, a moorage harbor or a swimming area or within 2,000 feet of a lock or dam.

Skiers who ski too close to other boats, docks and obstructions are showing poor judgement. Many of the complaints officers receive while patrolling the water are those about skiers skiing too close.

Persons being towed on any device must wear a Type I, II or III PFD. Boats (including personal watercraft) towing skiers must have, in addition to the operator of the boat, an observer 12 years of age or older or a wide angle rearview mirror mounted so that the operator can check on the skier but still give full attention to traffic ahead. There must be adequate seating for all riders.

Boats towing kites and similar air-borne devices must:
- Have, in addition to the operator, an observer 12 years or older (mirror will not suffice),
- Stay 500 feet from commercial docks

**ON ALL KENTUCKY FISH & WILDLIFE-OWNED/ MANAGED LAKES:**

- Boaters must use idle speed (slowest speed possible to maintain maneuverability of a boat) when passing another boat with an occupant actively engaged in fishing.
- The centerline of boats on the water cannot exceed 22 feet as measured on deck or bow to stern on all lakes owned or managed by Kentucky Fish and Wildlife, except on Guist Creek Lake where monohull boats with a centerline of 24 feet and 8 person capacity are allowed.
- On Cedar Creek Lake, Lake Beshear and Lake Malone only, pontoon boats may have deckings and pontoons up to 30 feet; on Guist Creek Lake pontoon max length is 24 feet. There is no size restriction on canoes.
- Houseboats are not permitted.
- Personal watercrafts are prohibited on Cedar Creek Lake.
- Swimming is permitted only in designated areas when a qualified lifeguard is on duty.
- Skin or scuba diving is not permitted.
- Boat motors without underwater exhaust are not permitted.

Water-skiing permitted as designated by signs on Guist Creek Lake and Lake Beshear from 10:00 a.m. to sunset beginning the third Thursday in May (May 21, 2020) through September 30. Similarly, water-skiing is permitted on Lake Malone beginning the third Thursday in May (May 21, 2020) through October 31. Water-skiing and tubing are prohibited on Cedar Creek Lake.

**AGE RESTRICTIONS**

A person must be 12 years or older to operate a motorboat (including personal watercraft) 10 horsepower or over on Kentucky public waters. A person 12-17 years old shall possess a Kentucky Safe Boating Certificate Card or a certificate showing successful completion of a NASBLA approved boater education course. For information about Kentucky’s Boater Education program, call 1-800-858-1549 or on the internet, log on to fis.ky.gov. Persons under 12 years of age must wear a personal flotation device (lifejacket) while in the open portion of a boat that is under way.

**Personal watercrafts are prohibited on Cedar Creek Lake.**

**Swimming is permitted only in designated areas when a qualified lifeguard is on duty.**

**Skin or scuba diving is not permitted.**

**Boat motors without underwater exhaust are not permitted.**

Water-skiing permitted as designated by signs on Guist Creek Lake and Lake Beshear from 10:00 a.m. to sunset beginning the third Thursday in May (May 21, 2020) through September 30. Similarly, water-skiing is permitted on Lake Malone beginning the third Thursday in May (May 21, 2020) through October 31. Water-skiing and tubing are prohibited on Cedar Creek Lake.
and ramps,
- Limit the tow rope to 150 feet or less,
- Have no more than two persons being towed.

PERSONAL WATERCRAFT
A “personal watercraft” (PWC) means a vessel which uses an internal combustion engine to power a jet pump for its primary source of propulsion and is designed to be operated by a person sitting, standing or kneeling on the vessel rather than by a person sitting or standing inside the vessel. In addition to being governed by the same laws that apply to all boats, the following laws apply to personal watercraft:
- Personal watercraft can only be operated between sunrise and sunset.
- Personal watercraft without self-circling capability must have a lanyard-type engine kill switch attached to the operator when the craft is underway.
- Operators and passengers must wear a U.S. Coast Guard-approved personal flotation device (PFD.)

Because of their small size and low profile, operators of PWCs should exercise defensive driving. These craft are highly responsive and capable of quick turns. In fact, this is part of the fun of their operation. However, this kind of operation is reckless if done in congested areas of boat traffic.

SKIN and SCUBA DIVING
(301 KAR 1:410, 6:030)
Skin or SCUBA diving is prohibited in all lakes owned or managed by the Kentucky Department of Fish and Wildlife Resources, except during emergencies, on Greenbo Lake and during salvage operations when the diver has written permission from the regional director or local wildlife and boating law enforcement officer assigned to the specific body of water in which the diving is to take place.

Persons diving or submerging with the aid of a mechanical breathing apparatus in an area where boats might be are required by law to display the diver’s flag. This flag should be put on a buoy, boat or other floating platform so boaters will readily see it. Approaching boats must stay outside of a 100-foot radius of the flag. Divers must surface within a 50-foot radius unless there is an emergency.

Divers shall not dive in established swimming areas and not be restricted to designated or generally recognized swimming areas. If you are a nonswimmer or a poor swimmer, wear a PFD! Remember, PFDs are not just for boaters.

Refrain from drinking alcoholic beverages when swimming. Alcohol greatly reduces a person’s reflexes and strength when in the water. For persons who have had alcoholic beverages a PFD is the difference between life and death.

Persons who wish to swim a long distance should swim parallel to the shore instead of across a river or lake. Boaters don’t normally expect to see swimmers in the middle of a lake or river and may run over them.

INFLATABLES
Air mattresses, inner tubes and other similar devices are generally used as recreational items by persons swimming or sunbathing. Use of these items should be restricted to designated or generally recognized swimming areas and not be used in areas of boat traffic. Nonswimmers or poor swimmers should not depend on these devices to save their life. These items can be punctured and lose their buoyancy – wear a PFD!

LITTERING
(KRS 433.757)
The operator of any motorboat or vessel is responsible for any litter thrown into the water. Litter is not only unsightly, but can be dangerous to humans and animals. For example, fishing line discarded into the water can be hazardous to wildlife and to a boat’s lower unit. Animals can be ensnared in the line and die. Fishing line caught on a prop shaft can cause seal leaks and lower unit failure. Trot lines and limb lines can snare animals and other anglers in boats.

BOAT OPERATION

RECKLESS OPERATION
The operator of a watercraft is responsible for damage caused by negligent operation. The following actions are considered reckless operation and are therefore against the law:
- Weaving through traffic;
- Following watercraft too closely that is towing an individual on waterskis, a surfboard or any water sport device;
- Jumping the wake of another craft in a way that endangers human life, physical safety or property;
- Cutting between a boat and the individual(s) being towed by the boat;
- Crossing the path of another boat when visibility is obstructed;
- Steering toward an object or individual in the water and turning sharply at close range.

Persons shall not operate a motorboat or personal watercraft within 50 feet of a commercial vessel and its tow that is in operation on a waterway, except if the operator of the commercial vessel has given consent.

When operating in a busy area, re-
duce speed and allow plenty of room for avoidance maneuvers. Even in areas that are not marked as idle speed, excessive wake can still be dangerous. Operators of larger craft should be aware of the wake their vessels are throwing.

**IDLE SPEED**

Kentucky law defines idle speed as the “slowest speed possible to maintain maneuverability” of a boat. Generally speaking for a properly adjusted boat, this is the speed when a boat is put into gear without advancing the throttle. Wakes can capsize small boats or cause damage to boats moored at marinas and docks. It is extremely important that boat operators be aware of their speed and the resulting wake. Operators are liable for any injuries or damage caused by their boat’s wake.

Boaters may see buoys or signs that say “No Wake.” This means that boats must be at idle speed.

**LOCKS AND DAMS**

Boaters in Kentucky may encounter lock and dam systems. Generally, these will be on the Green, Ohio and Kentucky Rivers (for the first four locks upstream to Frankfort, KY), but a few impoundments have a lock and dam. Locks are a relatively simple method of raising or lowering boats from one water level to another. If lockage is desired, boaters should signal the lock operator by using the pull chain on each end of the lock or call on marine channel 13. If the lock is not immediately available, boaters should position their vessels a safe distance from the approach channel to avoid personal injury or damage to their boat from wakes caused by commercial tows entering or leaving the locks. Never moor a vessel in the lock approach channels.

Dams associated with the locks can be very dangerous. Below all locks and dams, boat occupants must wear a personal flotation device (lifejacket) upstream of danger signs and open-diamond buoys or within 150 feet of the downstream lock and dam wall. Anglers should never fish from or stand on lock and dam structures.

Boaters should be alert for these structures. Dams are either conventional or “low head” type. Conventional dams are easily recognizable with their spillways and power installations.

**RESTRICTED ZONES**

(KAR 6:030)

Kentucky law prohibits boats from operating within restricted areas as posted above or below navigation, power generating or flood control dams.

No fish is worth risking your life. Be aware of trespassing and danger zones. Wear a PFD when entering any area above or below a dam.

**OPERATING UNDER THE INFLUENCE**

(KRS 235.240)

It is against the law to operate a boat or vessel including personal watercraft, manipulate water skis, surfboard or other similar device while intoxicated or under the influence of any other substance that impairs one’s driving ability. Any person who operates a vessel on Kentucky waters is considered to have given consent to a test or tests to determine his alcohol concentration or the presence of other drugs. The tests shall be administered at the direction of a law enforcement officer who has probable cause to believe that the operator is intoxicated. An operator refusing the test shall be in violation of the law and subject to the same penalties.

Anyone who operates a boat, PWC, should never fish from or stand on lock and dam structures.

**SMALL CRAFT PRECAUTIONS**

Statistics show that approximately half the boat-related fatalities involve boats that are less than 16’ in length. These boats are usually unstable and can tip over, throwing the occupants overboard. Also, these boats can be easily swamped, especially if used on a large body of water where the wind can cause high waves. When using such craft, be aware of the hazards. Wearing a personal floatation device (PFD) is strongly recommended.

BAC to .05% - Be careful. Loss of judgement and coordination.

BAC .05% to .07% - Abilities impaired. Chance of accident increased.

BAC .08% and over - Do not operate a boat. High risk of accident, subject to arrest.
On the water there are no painted lines to mark where boats must go. In order to provide an orderly flow of traffic, there are “rules of the road” that boaters should learn and practice.

Boaters on the water encounter three situations: meeting, crossing and overtaking. The following diagrams should give a clear explanation of who has the right of way (stand-on vessel) and who must give way (give-way vessel). However, in an emergency, all vessels must give way to avoid a collision. At night, a boat’s navigation lights give an indication of right of way (see page 36).

The above rules cover most traffic situations, but a few other situations exist. Sailboats under sail have the right of way except when they are the overtaking vessel. Rowboats and paddle powered boats have the right of way over motorboats. All recreational craft should yield the right of way to large commercial craft (towboats, barges). Such vessels have large blind spots and will be unable to see smaller crafts in front of them.

On small or narrow bodies of water, all traffic should stay to the right of mid-channel and not “cut corners”.

**BUOYS**

Buoy, a large floating device, is placed in the water to mark or indicate something. There are several types of buoys used in waterways:

- **Obstruction Marker**: Do not pass between shore and buoy.
- **Channel Marker**: Keep buoy on right facing upstream.
- **Mooring Buoy**: White with reflective blue band. May have white light or reflector.
- **Information**: Tells directions, distances, places such as food, repair, supplies and other non-regulatory messages.
- **Caution!**: Controlled Areas as indicated in circle, e.g., speed limit, no fishing, no anchoring, ski-only, slow-no wake, no ski or no prop boats.
- **Danger!**: Nature of danger may be indicated inside the diamond shape, e.g., rocks, reefs, dams, construction or snags.
- **Nature of danger may be placed outside crossed diamond, e.g., waterfalls, swim areas or rapids.**

**PROHIBITED RIDING**

Approximately half of boat related fatalities result from falls overboard. When operating a motorboat above idle speed the operator or passengers shall not ride on an enclosed bow, side protective railing of a pontoon or houseboat, or in a seat which extends six inches above the plane of the gunwales, nor shall they ride on the sides, back, engine cover, back of seat, or any other position which could lead to falling overboard.

**SKIS, SURFBOARD OR SIMILAR DEVICE**

While intoxicated with a blood alcohol level of 0.08 or higher or while under the influence of any substance that impairs the operator’s driving ability may be subject to fines and possible jail time if convicted.

**DRINKING IN PUBLIC and PUBLIC INTOXICATION**

(KRS 222.202)

Kentucky law specifically prohibits the drinking of alcoholic beverages in public places (this excludes establishments licensed to sell such beverages) and the waterways of this state are considered public places.

Further, in a public place, persons who are manifestly under the influence of alcoholic beverages to the extent that they may unreasonably annoy or endanger themselves or others shall be subject to arrest.

**UNIFORM STATE WATERWAY MARKING SYSTEM**

- **Boats Keep Out!**
  - Nature of danger may be placed outside crossed diamond, e.g., waterfalls, swim areas or rapids.
- **Danger!**
  - Nature of danger may be indicated inside the diamond shape, e.g., rocks, reefs, dams, construction or snags.
- **Caution!**
  - Controlled Areas as indicated in circle, e.g., speed limit, no fishing, no anchoring, ski-only, slow-no wake, no ski or no prop boats.
- **Information**
  - Tells directions, distances, places such as food, repair, supplies and other non-regulatory messages.
- **Obstruction Marker**
  - Do not pass between shore and buoy.
- **Mooring Buoy**
  - White with reflective blue band. May have white light or reflector.
- **Channel Marker**
  - Keep buoy on right facing upstream.
- **Channel Marker**
  - Keep buoy on left facing upstream. Marker may be green or black.
For each person onboard a vessel, federal as well as state law requires a Type I, II, or III personal flotation device (PFD) on all boats. Boats 16 feet and over, except canoes and kayaks, must also carry one Type IV throwable PFD. Operators and passengers of personal watercraft must wear a PFD. Persons under 12 years of age must wear a PFD while in the open part of a boat that is under way.

PERSONAL FLOTATION DEVICES
Kentucky Fish and Wildlife strongly recommends wearing PFDs while boating, especially by children and nonswimmers. In order for PFDs to be legal, the following requirements must be met:

- **Coast Guard approved:** A label with an approval number will be on the PFD. Check the label on inflatable types of PFDs. Some older models meet Coast Guard approval only when worn.
- **Serviceability:** All straps, buckles, zippers, stitching, must be intact and the fabric should not be rotted. Some PFDs contain airtight bags filled with a fibrous material. Squeeze the bags. If air escapes, destroy the PFD and replace it with a new one.
- **Size:** PFDs must fit properly. Read the label to determine size and weight restrictions.
- **Accessibility:** PFDs must be readily available for immediate use by all occupants of a vessel. It is advisable for each person to try on their PFD before departing so that they are familiar with the fastening devices and to assure it is adjusted to the person. PFDs shouldn’t be stored in the plastic bags in which they were sold. This limits access and can promote rotting.

**FIRE EXTINGUISHERS**
Kentucky law requires that all boats equipped with a petroleum product (gasoline, kerosene, propane, etc.) consuming device (engines, lanterns, stoves, etc.) shall have a hand portable fire extinguisher in serviceable condition and located for immediate use. The best fire protection is well maintained equipment and proper safety habits.

There are fuels other than gasoline that cause fires. Many houseboats use bottled gas (propane) for stoves and other appliances. Also, many fishermen will use a lantern while fishing at night; if tipped over it can cause a fire.

**BACKFIRE FLAME ARRESTERS**
Internal combustion engines may backfire. To safeguard against fire, all motorboats with enclosed engines and engines originally equipped with a flame arrester, (except outboards and diesels) must have an approved
BOATING

VENTILATION

Most fires on a boat are due to ignition of fuel vapors. Gasoline is heavier than air. It can collect in the bilge or engine compartment and any spark can ignite it. Therefore, Kentucky law requires boats to have adequate ventilation of areas where flammable vapors can accumulate.

Most boats are equipped with adequate ventilation systems when they come from the factory. Usually, this is a combination of active and passive systems. Active systems use electrical blowers to exhaust flammable vapors from the bilge and other areas. Passive systems are ducts and cowls that ventilate areas when the boat is moving. Almost all inboards will have an electrical blower installed in the engine compartment. Operators should run the blower for several minutes before starting the engine. If the blower is inoperable it should be repaired or replaced immediately. Many boat fires take place after refueling, so care should be taken to avoid spilling fuel in the vessel.

NAVIGATION LIGHTS

All vessels when underway between sunset and sunrise must display proper navigation lights. Navigation lights on boats are restricted to the colors of red, green and white.

From sunset to sunrise in an area where other boats navigate, all vessels at anchor shall display a steady white light visible 360 degrees at all times. Manually propelled vessels shall carry a white light to display in sufficient time to avoid a collision.

The purpose of the red and green navigation lights at night is to show if your boat is in a meeting, crossing or overtaking situation. The red and green lights must be displayed from sunset to sunrise whenever a boat is underway. They will give some indication of the size and speed of vessels. The red and green bow lights are especially helpful in determining right of way in crossing situations. In the diagram below, boat B sees the green bow light of boat A, and has the right of way to continue on course. Boat A sees the red bow light of boat B and must stop or pass astern of boat B. In special circumstances, such as towing, refer to 33 CFR 83 (Inland Navigation Rules).

SIGNALING DEVICES

Kentucky law states that all boats 16 feet in length or longer must have a hand-, mouth- or power-operated signaling device capable of producing a blast for two seconds or more and audible for one-half mile for class 1 vessels, one mile for class two vessels and one and one-half miles for class three vessels. This does not exempt vessels from any other signaling device as may be required by federal law when operating on navigable waters of this state.

Navigation law also requires the following maneuvering and warning signals:
- One long blast: Warning signal (coming out of slip)
- One short blast: Pass on my port side (left)
- Two short blasts: Pass on my starboard (right)
- Three short blasts: Engines in reverse
- Five or more blasts: Danger signal

MUFFLING DEVICES

Kentucky law requires all boats to be equipped with effective exhaust muffling devices. Usually, boats and motors that come direct from the manufacturer are adequately muffled. However, there may be instances of high performance boats that have been modified by the owners that are not in compliance with the law. Additionally, there may be federal and/or local regulations restricting boats with an over-the-transom exhaust system.

MARINE SANITATION DEVICES (KRS 235:420)

Motorboats with marine toilets are not allowed on public waters unless the toilet is equipped with a Type I, II or III marine sanitation device (MSD). Type I and II MSDs chemically treat sewage. Type III MSDs are holding tanks for raw sewage.

Raw sewage shall not be discharged in any public waters. Treated sewage may be discharged from a marine toilet into legal “discharge” waters. Those waters are Barkley and Kentucky lakes, Lake Cumberland and any of the major river systems. Type I and II MSDs must be sealed or locked while the vessel is on “no discharge” waters.
BOATING ACCIDENTS

(301 KAR 6:030, KRS 235.250)

REPORTING REQUIREMENTS

If any of the following conditions occur as the result of a boating accident, collision, etc., a Boating Accident Report must be made:

• death or disappearance of a person;
• injury to a person which requires medical attention or incapacitates that person for 24 hours or more;
• loss or damage to property (including the vessel) in an amount of $500 or more.

The operator of a vessel is required to complete the report. If the operator is not capable of filing the report and is not the owner of the vessel, then the owner shall be required to fill out a boating accident report.

Note 1: Even if a Law Enforcement Officer fills out a boating accident report, this does not exempt the operator from filing a report.

Note 2: The reports filed by operators of vessels are confidential and are not available as public record (KRS 235.250). However, reports made by officers are available for review.

Accidents involving death or serious injury must be submitted to the Division of Law Enforcement within 48 hours. All others must be submitted within five days.

Boating accident report forms are available from wildlife and boating law enforcement officers or by writing to Kentucky Department of Fish and Wildlife Resources, Division of Law Enforcement, #1 Sportsman’s Lane, Frankfort, KY 40601, calling 1-800-858-1549, or online at fw.ky.gov.

RENDERING AID

An operator of a vessel involved in a boating accident shall render aid to other persons and vessels as long as it doesn’t endanger his crew, passengers or vessel. Also, the operator of any vessel involved in an accident shall give his name, address, and identification of his vessel, in writing, to any person that is injured or to the owner of any property that is damaged.

FIRST AID

This section includes suggestions that may save a life. First, boats should be equipped with a first aid kit. This kit should be able to provide treatment for burns, insect bites, cuts and abrasions.

Second, boaters should take a first aid course so they know how to treat victims with sprains, broken bones and shock.

Third, boaters should know how to perform Cardiopulmonary Resuscitation (CPR) in case they encounter victims of near drowning, heart attack or trauma from boating accidents. In many cases, emergency medical help is further away on the water than on land. Interested persons should contact their local chapter of the American Red Cross for information on first aid and CPR training.

HYPOTHERMIA

Four elements cause hypothermia – cold, moisture, wind and exhaustion. Symptoms of hypothermia are uncontrollable shivering, slurred speech, stumbling, blue skin, decreased heart and breathing rate, weak pulse and unconsciousness.

All hypothermia symptoms demand immediate attention. As soon as possible, a victim of hypothermia should be brought out of the weather. Wet clothing should be replaced with dry clothing. If the victim shows mild symptoms, get them near a fire or other heat source or put them in a warm sleeping bag. For victims with advanced symptoms of hypothermia, seek immediate medical attention. Never give alcohol to the victim.

The best cure for hypothermia is prevention. Monitor weather reports when you plan to be in the outdoors. Dress in layers and always have foul-weather gear handy.

FATIGUE

Boaters should be aware of the factors that induce fatigue while on the water. The wind, sun, engine noise and constant motion of the boat can greatly reduce a person’s reaction time.
