## **Property Acquired for Stream Restoration/Preservation**

The Stream Team program acquires certain properties for restoration. These areas are opened to the public for regulated use as wildlife management areas.

### **Ed Mabry-Laurel Creek Gorge WMA, Elliott County (698 acres)**

Above: Six miles of Laurel Creek, a trout stream, run through the WMA.

# Buck Creek WMA, Pulaski County (850 acres)

Above: Photo of Buck Creek along boundary of the WMA.

# Veteran's Memorial WMA, Scott County (2,500 acres)

Above: over 90,000 feet of unstable headwater streams will be restored on Veteran's Memorial WMA to reduce erosion and siltation impacts downstream, and to improve stream and wetland habitat along riparian corridors. Project targeted for 2013-2014 construction.
