AUTHORIZATION PURSUANT TO KRS 150.105

Pursuant to the authority of KRS 150.105, and with the approval granted by the Kentucky Department of Fish and Wildlife Resources (KDFWR) Commission at its June 15, 2018 meeting, I hereby issue the following authorization:

To address the widespread property damage and prevent further damage by beavers in the Commonwealth of Kentucky, any licensed trapper or nuisance wildlife control operator is hereby authorized to use a modified timeline from KRS 150.410(2) for trapping, under the following conditions:

1. This authorization shall apply to the 1st, 2nd, 3rd, and 4th KDFWR Law Enforcement Districts. Outside of applicable counties in these districts, landowners experiencing damage from beaver or muskrat as described below may contact a KDFWR conservation officer or wildlife biologist to request authorization on a case-by-case basis.
2. This authorization shall only apply to beaver or muskrat causing flooding of property or damage to roads, crops, cropland, timber, or ornamental trees.
3. This authorization shall only apply to traps utilized as water sets defined in 301 KAR 2:251.
4. Traps set for the purposes of taking damage-causing beaver or muskrat under this authorization must be checked at least once every forty-eight (48) hours.
5. Incidental catch of otter or bobcat must be telechecked (either online via fw.ky.gov or 1-800-245-

4263) and may be used for personal or educational use
but shall not be sold.

This authorization is effective from the date of this letter through March
31, 2024. Sincerely,

A handwritten signature in black ink, appearing to read "Rich Storm", written over a horizontal line.

Rich Storm
Commissioner, Kentucky Department of Fish and Wildlife Resources
