

December 26, 2025

Kentucky Waterfowl Ground Counts

The second segment of duck season opened Sunday December 7 and will run through January 31, 2026. Goose season opened on Thursday November 27, 2025 and will run through February 15, 2026. All bag limits will remain the same as the previous season, except that hunters may now harvest three pintails daily. Check out the 2025-26 Kentucky Waterfowl Hunting Guide or visit the waterfowl hunting web page for more details. Good luck hunting this year. Be safe and enjoy your time afield.

Highly pathogenic avian influenza is present in Kentucky. As of November 20, 2025, it has only been detected in raptors for the 2025-26 migratory season. Visit the KDFWR Avian Influenza webpage to view an up-to-date map of detections. Hunters should use common sense when handling/cleaning harvested waterfowl. See page two of the Waterfowl Guide for recommendations for the safe handling and disposal of your birds. After cleaning waterfowl, hunters are encouraged to place the remains in trash bags and dispose of them through trash collection or a permitted landfill. Bald eagles and other raptors are particularly susceptible to avian influenza. This simple action could help prevent bald eagle and other raptor mortalities. Please let WMA staff know if you observe any sick or dead birds.

Location	Date	Ducks	Geese	Duck Species Composition	Comments
Ballard WMA	12/23/2025	34550 total 31975 Mallard 1600 Ring-necked 490 Gadwall 300 Shoveler 130 Wigeon 34 Wood duck 10 GW teal 2 Black duck 1 Ruddy duck 1 Unknown	20730 total 17500 Snow 3200 Wf Goose 30 Canada	Mallard 93% Ring-necked 5% Gadwall 1% Shoveler <1% Wigeon <1% Wood duck <1% GW teal <1% Black duck <1% Ruddy duck <1% Unknown <1%	7 Hooded Mergansers
Barren River Lake WMA		20 total	179 total		Normal conditions, finally got a good runoff rain event this weeks, lots of fishermen on the lake and bank, lots of eagles, warm weather moved the ducks oput
