

Kentucky Department of Fish and Wildlife Resources

Camp Currie cancelled for week of June 20, 2022

Dear Camp Currie Parent/Guardian,

We have an important update regarding Camp Currie operations for the week of June 20 – 24. Due to exposure to COVID-19 by a staff member and a resulting confirmed positive test, we must close camp at this time.

Once exposure to COVID-19 was determined, Kentucky Department of Fish and Wildlife Resources staff followed the recommended CDC guidelines, resulting in the isolation of other staff and campers. Due to the length of isolation and the number of staff affected, cancelling camp for the upcoming week was the safest option for everyone involved.

The safety of our campers and staff is the number one priority of the conservation camp program, so we will continue to follow the established CDC guidelines for close contact exposures.

The most difficult aspect of this decision is the impact it may have on your child. It is devastating for us that camp will not happen next week, and we are disappointed your child won't have the opportunity to attend conservation camp this summer. We also understand that closing camp may have a significant impact on your family, and we are deeply sorry for this complex situation.

All registration fees will be refunded to the credit card that was initially used to pay for camp registration. The refunds could take up to a couple weeks before you see them in your account, but those transactions will begin today.

If you have questions regarding the closure of Camp Currie, please call the Kentucky Fish and Wildlife Information Center at 1-800-858-1549.

Thank you
