Paul Van Booven WMA is located in southeast Breathitt County. The WMA consists of over 2,000 acres of reclaimed surface mines and forests. The University of Kentucky owned property is the site of many ongoing research projects related to forest management and mine reclamation. Good to moderate populations of elk, quail, rabbits, deer, turkey and songbirds exist on the area.

Through the cooperative agreement with the University of Kentucky the area is an Elk Viewing Area and is closed to elk hunting.

The area is open for hunting under statewide regulations except for archery/crossbow only for deer.

Online Resources

Public Hunting Area users must abide by the Kentucky hunting, trapping, and fishing regulations. It is incumbent on persons using Public Hunting Areas to become familiar with these regulations. Kentucky Department of Fish & Wildlife Resources provides these regulations on our Web site at fw.ky.gov or by calling 1-800-858-1549.
Wildlife Management Area Map Notes & Legend

NOTE TO MAP USERS:

For most WMA maps the landscape is depicted using a combination of elevation contours, hillshading and a green tint indicating woodland areas that is derived from satellite imagery. On WMAs that are relatively small or have a history of surface mining aerial photography is used.
