WMA Overview
Location & Size: Harlan County, 1,017 acres.
Contact: (606) 337-9317
Elevation: minimum 1683 feet, maximum 2933 feet.
Enterance GPS coordinates: Latitude N 36.76137, Longitude W -83.13831
Area Habitat: mostly forest: open land 6%, forest 94%, wetland 0%, open water 0%.

Directions & Description:
From Harlan travel approximately 13 miles southeast on HWY 421 to the property on the right. There are 2 access points. The first access is directly off HWY 421, approximately halfway up the mountain there is a sharp curve, just past this curve is a parking area on the right. Access to the parking area should be made when coming down the hill or exiting the parking area should only be made up the hill due to a blind spot on HWY 421 and the angle of the drive. The second access is a dirt road at the top of the hill that turns to the right. Follow this road 1.2 miles to the property; a minimum of a 2-wheel drive truck is recommended for ground clearance.

Steep, mountainous terrain, is entirely forested with the exception of a dry man-made lakebed. Good to moderate populations of squirrel, rabbits, deer, turkey and songbirds exist on the area. The area is open under statewide regulations for small game, turkey, and deer seasons. Purchased with Kentucky Heritage Land Conservation funds and is jointly owned and managed by the Kentucky Department of Fish & Wildlife Resources and the Kentucky State Nature Preserves Commission.

Online Resources
Public Hunting Area users must abide by the Kentucky hunting, trapping, and fishing regulations. It is incumbent on persons using Public Hunting Areas to become familiar with these regulations. Kentucky Department of Fish & Wildlife Resources provides these regulations on our Web site at fw.ky.gov or by calling 1-800-858-1549.
NOTE TO MAP USERS:

For most WMA maps the landscape is depicted using a combination of elevation contours, hillshading and a green tint indicating woodland areas that is derived from satellite imagery. On WMAs that are relatively small or have a history of surface mining aerial photography is used.
